**The State and Domestic Agricultural Markets in Nicaragua** Max Spoor,2016-07-27 The book examines in depth the problematic effects of state intervention in agricultural markets of developing countries against the background of the current transition of interventionism to neo liberalism The fascinating case of Nicaragua is explored focusing on the 1979 1990 interventionist period under Sandinista rule followed by an analysis of the post 1990 laissez faire UNO period The limits of state intervention are shown by analysing in detail the unintended effects of certain policies such as those on land reform price credit and technology Finally the book draws comparisons between the Nicaraguan case in which two transitions took place in a relatively short time span and the recent dramatic transformations of Eastern Europe It provides arguments for a different role for the state in this process which is directed to market development rather than the current withdrawal

**The Undermining of the Sandinista Revolution** Gary Prevost,Harry E. Vanden,2016-04-30 The Sandinista revolution brought dramatic social economic and political changes to Nicaragua in the 1980s but in the wake of the electoral defeat of the FSLN in 1990 the revolution has struggled to survive in the face of challenges from the Chamorro administration the US government and the International Monetary Fund Gains of the revolution in health care education Atlantic Coast autonomy agrarian reform and other areas have been systematically eroded However significant efforts have also been mounted especially in grass roots organizing and by women s organizations to protect the revolution s achievements Through a series of articles based on current research seven experts on contemporary Nicaragua draw a balance sheet on the gains of Sandinista revolution achieved by 1990 and assess the current status of the revolutionary project

*Peasants in Arms* Lynn

Horton,2014-08-27 Drawing on testimonies from contra collaborators and ex combatants as well as pro Sandinista peasants this book presents a dynamic account of the growing divisions between peasants from the area of Quilal who took up arms in defense of revolutionary programs and ideals such as land reform and equality and those who opposed the FSLN Peasants in Arms details the role of local elites in organizing the first anti Sandinista uprising in 1980 and their subsequent rise to positions of field command in the contras Lynn Horton explores the internal factors that led a majority of peasants to turn against the revolution and the ways in which the military draft and family and community pressures reinforced conflict and undermined mid decade FSLN policy shifts that attempted to win back peasant support

*Capital, Power, And Inequality In Latin America* Sandor Halebsky,2018-10-08 Over the last two decades economic political and social life in Latin America has been transformed by the region s accelerated integration into the global economy Although this transformation has tended to exacerbate various inequities new forms of popular expression and action challenging the contemporary structures of capital and power have also developed This volume is a comprehensive genuinely comparative text on contemporary Latin America In it an international group of contributors offer multidimensional analyses of the historical context contemporary character and future direction of rural transformation urbanization economic restructuring and the transition to political democracy In

addition individual essays address the changing role of women the influence of religion the growth of new social movements the struggles of indigenous peoples and ecological issues Finally the book examines the influence of U S policy and of regionalization and globalization on the Latin American states Sandor Halebsky is professor of sociology at Saint Mary's University in Halifax Nova Scotia He coedited Cuba in Transition Crisis and Transformation Westview 1992 Richard L Harris is chair of the faculty at Golden Gate University in Monterey California He is one of the coordinating editors of the journal Latin American Perspectives and the author of Marxism Socialism and Democracy in Latin America Westview 1992 **Food and Revolution** Christiane Berth, 2021-02-02 Food policy and practices varied widely in Nicaragua during the last decades of the twentieth century In the 1970s and 80s food scarcity contributed to the demise of the Somoza dictatorship and the Sandinista revolution Although faced with widespread scarcity and political restrictions Nicaraguan consumers still carved out spaces for defining their food choices Despite economic crises rationing and war limiting peoples food selection consumers responded with improvisation in daily cooking practices and organizing food exchanges through three distinct periods First the Somoza dictatorship 1936 1979 promoted culture and food practices from the United States which was an option only for a minority of citizens Second the 1979 Sandinista revolution tried to steer Nicaraguans away from mass consumption by introducing an austere frugal consumption that favored local products Third the transition to democracy between 1988 and 1993 marked by extreme scarcity and economic crisis witnessed the re introduction of market mechanisms mass advertising and imported goods Despite the erosion of food policy during transition the Nicaraguan revolution contributed to recognizing food security as a basic right and the rise of peasant movements for food sovereignty

*Gendered Scenarios of Revolution* Rosario Montoya, 2012-12-01 In 1979 toward the end of the Cold War era Nicaragua's Sandinista movement emerged on the world stage claiming to represent a new form of socialism Gendered Scenarios of Revolution is a historical ethnography of Sandinista state formation from the perspective of El Tule a peasant village that was itself thrust onto a national and international stage as a model Sandinista community This book follows the villagers' story as they joined the Sandinista movement performed revolution before a world audience and grappled with the lessons of this experience in the neoliberal aftermath Employing an approach that combines political economy and cultural analysis Montoya argues that the Sandinistas collapsed gender contradictions into class ones and that as the Contra War exacerbated political and economic crises in the country the Sandinistas increasingly ruled by mandate as vanguard party instead of creating the participatory democracy that they professed to work toward In El Tule this meant that even though the Sandinistas created new roles and possibilities for women and men over time they upheld pre revolutionary patriarchal social structures Yet in showing how the revolution created opportunities for Tuleños to assert their agency and advance their interests even against the Sandinistas' own interests this book offers a reinterpretation of the revolution's supposed failure Examining this community's experience in the Sandinista and post Sandinista periods offers perspective on both processes of

revolutionary transformation and their legacies in the neoliberal era Gendered Scenarios of Revolution will engage graduate and undergraduate students and scholars in anthropology sociology history and women s and gender studies and appeal to anyone interested in modern revolution and its aftermath    **Ethiopian Journal of Economics** ,1997    **Two Decades of Adjustment and Agricultural Development in Latin America and the Caribbean** Max Spoor,2000    **British Bulletin of Publications on Latin America, the Caribbean, Portugal, and Spain** ,1998    **Bibliographie Mensuelle.
