## State Of Emergency:

*Permanent States of Emergency and the Rule of Law* Alan Greene, 2018-04-05 Permanent States of Emergency and the Rule of Law explores the impact that oxymoronic permanent states of emergency have on the validity and effectiveness of constitutional norms and ultimately constituent power It challenges the idea that many constitutional orders are facing permanent states of emergency due to the objective nature of threats facing modern states today arguing instead that the nature of a threat depends upon the subjective assessment of the decision maker In light of this it further argues that robust judicial scrutiny and review of these decisions is required to ensure that the temporariness of the emergency is a legal question and that the validity of constitutional norms is not undermined by their perpetual suspension It does this by way of a narrower conception of the rule of law than standard accounts in favour of judicial review of emergency powers in the literature which tend to be based on the normative value of human rights In so doing it seeks to refute the fundamental constitutional challenge posed by Carl Schmitt that all state power cannot be constrained by law

**States of Emergency and Human Rights Protection** Monika Florczak-Wątor, Fruzsina Gárdos-Orosz, Jan Malíř, Max Steuer, 2024-02-13 Emergencies are ubiquitous in 21st century societal discourses From the rise of emergency pronouncements in the United States since 9 11 accompanied by the associated violations of fundamental rights through talks of crises in the EU in relation to the economy Putin s occupation of Crimea as recently amplified by the full scale invasion of Ukraine or refugees to the long neglected looming climate catastrophe emergency discourses have been catapulted to the centre of attention by the critical juncture of the COVID 19 pandemic This volume presents and compares the existing regulations and practices of emergencies and human rights protection in the Visegrad V4 countries As such the analysis covers Czech Republic Hungary Poland and Slovakia Although these European countries share a common historical experience and are now members of the EU and NATO they differ in some of their constitutional traditions and also in the dynamics of their political regimes Divided into three parts the first two comprehensively discuss the constitutional models of emergency and human rights protection in each of the V4 countries while the third part illustrates how these models and the general framework of rights protection materialised in the limitations of the selected human rights during the COVID 19 pandemic The volume provides a compass for more in depth comparative and interdisciplinary inquiries into the forms and practices of emergencies in one of the EU regions that faces illiberalisation and the consequences of the ongoing invasion of Ukraine by the Russian Federation on its eastern borders It will be a valuable resource for academics researchers and policymakers working in the areas of Constitutional Law and Politics The Introduction Chapter 7 and Chapter 10 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**Why Do Governments Call a State of Emergency? - On the Determinants**

**of Using Emergency Constitutions** Christian Bjørnskov, 2017 States of emergency do not only imply a significant change in the balance of powers between the three branches of government they are also very frequently declared between 1985 and 2014 at least 137 countries were subject to at least one such event This contribution is the first to systematically inquire into the factors determining such declarations We find that constitutions matter Countries without constitutionalized emergency provisions declare states of emergency significantly more often than countries with such provisions We further find that it is crucial to distinguish between states of emergency declared as a consequence of a natural disaster from those declared as a consequence of political turmoil Distinguishing between the costs of declaring an emergency and its benefits we find that the less costly it is to declare an emergency the more emergencies will be called on the grounds of natural disasters but not on the grounds of political turmoil This is hence more evidence that constitutions matter Finally emergencies based on political turmoil are more likely to be declared if an economic crisis is hitting the country Public and Local Acts of the Legislature of the State of Michigan Michigan, 1981 Includes regular special adjourned and extra sessions **Revised Statutes of the State of Missouri, 1986** Missouri, 1986 **Michigan Emergency Preparedness Plan** Michigan.
