Public Policy and the Two States of Kansas H. George Frederickson, 1994 The authors survey general revenue and demographic issues and then analyze the five policy areas: education, corrections, transportation, welfare, and health, that consume 84.3% of the state budget and that in terms of both cost and controversy rank highest on the state's policy agenda. Emerging from this analysis is the disturbing consensus that Kansas is an increasingly divided state: one urban, younger, and wealthier; the other rural, older, and poorer.
