## **State And Capital A Marxist Debate:**

*State and Capital* John Holloway, Sol Picciotto, 1978    [State and Capital \[sound Recording\] : a Marxist Debate](#) Holloway, John, Picciotto, Sol, 1984    *State and capital. A marxist debate* John Holloway, 1978    **Marxism and the Capitalist State** Rob Hunter, Rafael Khachaturian, Eva Nanopoulos, 2023-10-30 This book builds on the recent revival of interest in Marx and Marxism calling for a renewal and refinement of Marxist state theory. It aims to provoke and encourage new debates and critiques that build on but also update and extend the rich tradition of Marxist analyses of the capitalist state including the well known debates of the 1970s. The chapters present a dynamic and diverse constellation of arguments and perspectives on a range of topics from general re appraisals of the capitalist state to investigations of contemporary challenges including digitalisation the ecological crisis the coronavirus pandemic social reproduction and critical political economy. What they share is a commitment to an understanding of the specifically capitalist character of the modern state and its significance for any serious discussion of the causes of our current age of global catastrophe and the overcoming of capitalist social relations

*Critical Theory and the Critique of Political Economy* Werner Bonefeld, 2014-05-08 Subversive thought is none other than the cunning of reason when confronted with a social reality in which the poor and miserable are required to sustain the illusion of fictitious wealth. Yet this subsidy is absolutely necessary in existing society to prevent its implosion. The critique of political economy is a thoroughly subversive business. It rejects the appearance of economic reality as a natural thing, argues that economy has not independent existence, expounds economy as political economy and rejects as conformist rebellion those anti capitalist perspectives that derive their rationality from the existing conceptuality of society. Subversion focuses on human conditions. Its critical subject is society unaware of itself. This book develops Marx's critique of political economy as negative theory of society. It does not conform to the patterns of the world and demands that society rids itself of all the muck of ages and founds itself anew

**Debtfare States and the Poverty Industry** Susanne Soederberg, 2014-09-19 WINNER of the BISA IPEG Book Prize 2015 <http://www.bisa.ipeg.org/ipeg/book-prize/2015-winner> announced Under the rubric of financial inclusion lending to the poor in both the global North and global South has become a highly lucrative and rapidly expanding industry since the 1990s. A key inquiry of this book is what is the financial in which the poor are asked to join. Instead of embracing the mainstream position that financial inclusion is a natural, inevitable and mutually beneficial arrangement, *Debtfare States and the Poverty Industry* suggests that the structural violence inherent to neoliberalism and credit-led accumulation have created and normalized a reality in which the working poor can no longer afford to live without expensive credit. The book further transcends economic treatments of credit and debt by revealing how the poverty industry is extricably linked to the social power of money the paradoxes in credit-led accumulation and debtfarism. The latter refers to rhetorical and regulatory forms of governance that mediate and facilitate the expansion of the poverty industry and the reliance of the poor on credit to augment replace their wages. Through a historically grounded analysis the author examines

various dimensions of the poverty industry ranging from the credit card payday loan and student loan industries in the United States to micro lending and low income housing finance industries in Mexico Providing a much needed theorization of the politics of debt Debtfare States and the Poverty Industry has wider implications of the increasing dependence of the poor on consumer credit across the globe this book will be of very strong interest to students and scholars of Global Political Economy Finance Development Studies Geography Law History and Sociology The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781315761954> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license <https://www.youtube.com/watch?v=2lU6PHjyOzU> **The Political Economy of Development and Environment in Korea** Jae-Yong Chung, Richard J. Kirkby, 2005-07-25 This book looks at Korea's economic social and spatial development processes from the early Modernisation period to the financial crisis of 1997 It focuses on the political and ideological control of the state during the developmental era as well as the environmental problems of Korea and examines how society and environment have been used as means to attain rapid accumulation Providing an holistic approach to Korean development this title allows a comprehensive view of Korea's economic miracle as well as its recent problems

*Open Marxism* Christos Memos, 2025-01-09 Bringing together the various heterodox traditions groups and scholars that came under the heading of Open Marxism for the first time this book assesses the evolution of Open Marxism from the initial usage of the term by Kostas Axelos in France in the 1950s and the journal Arguments principally the anarchist Marx of Maximilien Rubel and the Libertarian Marxism of Daniel Guerin through Open Marxism as it was developed in Eastern Europe especially in the scholarly work of Karel Kosík in Czechoslovakia the work of the Polish Open Marxists and the Praxis group in Yugoslavia to Johannes Agnoli's work in post 1968 West Germany and finally to the work developed by Bonefeld Clarke Gunn and Holloway within the framework of the Conference of Socialist Economists CSE in Britain since the 1980s Its comprehensive study of the historical development of Open Marxism in all its various guises and forms reasserts the rich insights of its devastating critique of social democracy Leninism Stalinism and the Althusserian structuralist paradigm It introduces a new readership to Open Marxism's negative fundamental and destructive critique of capitalism and examines the practical relevance of its subversive thinking to the contemporary struggle for a free and open socialist society **The State Debate** Simon Clarke, 2016-07-27 The 1990s promise to be a period of rapid political change as old political boundaries dissolve and new political forces emerge These changes throw into question our understanding of capitalism and

socialism of the character of the nation state and of the relationship between the economy and the state. However these changes are only the culmination of developments which have been unfolding over the past two decades. This book includes a comprehensive introductory survey which sets the contributions collected here within the context of the wider debate.

*Marxism and Law* Hugh Collins, 1984 In this introduction to Marxism and the law Hugh Collins presents a unified and coherent view of Marxism which he uses to examine the specific characteristics of legal institutions, rules and ideals. He pays particular attention to the place of ideology in law, the distinction between base and superstructure and the destiny of law in a Communist society. His principal theme is the Marxist critique of the ideal of the Rule of Law. He argues that the main purpose of a Marxist theory of law is to expose the belief in the Rule of Law as being a subtle and pervasive ideology which serves to obscure the structures of class domination within the State. The author frequently subjects the Marxist approach to criticism and he shows that many of the Marxist claims about law are unproven or misconceived. The book is written in straightforward non technical language which requires no knowledge of either Marxism or law.

ideeën **Power and Marxist Theory** Jeffrey C. Isaac, 1987 *The State and Capitalism in Israel* Amir Ben Porat, 1993-08-30 This study examines the development of capitalism in Israel. Taking a different view from the traditional modernization perspective Ben Porat argues that since 1948 when Israel became a state the process of forming a capitalist society has underlain all other major processes. To explain capitalism in Israel a perspective is needed that treats the problems of implanting capitalism in post colonial states. Problems include the undeveloped class structure, the inability of the bourgeoisie to fulfill its capitalist role, the continuing post colonial dependency on state support and most importantly the central role of the state in enhancing but also regulating capitalism.
