State And Economic Development Lessons From The Far East:

The State and Economic Development Robert Fitzgerald,2013-05-13 This book explores the role of national governments during the process of industrialisation in East Asia and examines the relationship between the State and business clearing up many Western misconceptions The similarities and differences which exist between nations in this region and the influence of Japan as a role model are also investigated Government industry linkages and an overview of economic rationale also studied in this volume are following the establishment of market orientated economies in many Far Eastern countries This book brings new insight into the business politics relationship which gives the reader a complete understanding of the East Asian economic miracle

Law and Development in East and South-East Asia Christoph Antons,2005-10-05 During the 1980s and 1990s Asian developmental states attracted much attention in political science and economics literature but the role of law in the economic development was neglected It was only after the Asian crisis of 1997 that many analysts began to focus on a lack of regulation and transparency as a major factor triggering the crisis The crucial questions now are how successful the current reforms will be and which features of the Asian approach to commercial law will be resistant to reform pressures This book examines the prospects for commercial law reform in Asia giving particular attention to Japan and Singapore as frequently cited role models for Asian developmentalism and also examining development related business laws in countries such as China Korea Indonesia Malaysia Vietnam and the Philippines

Special Issue on the State and Economic Development Robert Fitzgerald,1995 **Market or Government Failures?** A. Bhalla,2001-03-13 Choosing between government and market is not a very helpful exercise since both are necessary This book argues that it is misplaced to dichotomise between government and market failures Too much attention is generally placed on government failures and not enough on private corporate failures Failures occur in both public and private corporate spheres They may be due to lapses in implementation of policies and programmes Lack of enforcement in developing countries occurs either because rules and norms do not exist or they are poorly enforced Emphasis on implementation problems highlights the importance of organizations and institutions

Abstracts of Public Administration, Development, and Environment ,1995 Regionalism and Rivalry Jeffrey A. Frankel,Miles Kahler,2007-12-01

As Japan s newfound economic power leads to increased political power there is concern that Japan may be turning East Asia into a regional economic bloc to rival the U S and Europe In Regionalism and Rivalry leading economists and political scientists address this concern by looking at three central questions Is Japan forming a trading bloc in Pacific Asia Does Japan use foreign direct investment in Southeast Asia to achieve national goals Does Japan possess the leadership qualities necessary for a nation assuming greater political responsibility in international affairs The authors contend that although intraregional trade in East Asia is growing rapidly a trade bloc is not necessarily forming They show that the trade increase can be explained entirely by factors independent of discriminatory trading arrangements such as the rapid growth of East Asian economies Other chapters look in detail at cases of Japanese direct investment in Southeast Asia and find little evidence of attempts by Japan to use the power of its multinational corporations for political purposes A third group of papers attempt to gauge Japan s leadership characteristics They focus on Japan s technology ideology its contributions to international public goods international monetary cooperation and economic liberalization in East Asia
