

Annual Survey of State Government Finances Summary: 2023

2023-2024
2023

Key Findings

The 2023-2024 survey shows a significant increase in the General Fund, which now accounts for 45% of the total state government finances, up from 40% in 2023. This increase is primarily driven by a rise in state income taxes and a decrease in state debt. The State Debt segment, which was 30% in 2023, has decreased to 25% in 2023-2024, reflecting a successful debt reduction strategy.

State Pension remains a stable component of the state government finances, accounting for 15% of the total. The State Reserve, which serves as a buffer for unexpected expenses, has increased from 10% to 15%. The State Capital segment, which is used for infrastructure and other long-term investments, remains at 5%. The overall trend indicates a more balanced and sustainable financial structure for the state government.

The survey also highlights the importance of maintaining a strong General Fund to support essential services and infrastructure. The reduction in state debt is a positive sign, indicating that the state is effectively managing its financial obligations.
