**Resistance to Dictatorship in Chile, 1973-1990** Richard G. Smith,2024-09-30 This book documents and analyses Chilean university and school students opposition to the Pinochet regime during the latter years of the 1970s and the 1980s The book focuses on key episodes such as the establishment of cultural groups within the militarily controlled universities that enabled students to congregate and exchange ideas for the first time since the 1973 coup how university and secondary school students created their own democratic institutions to challenge the regime appointed bodies and how these eventually led to the restoration of the national federations that had been banned by the military government The author explores the key relationship between the vertically organised underground political parties and the horizontally organised broad non partisan organisations created by the students arguing that this structure brought advantages to the movement The students contribution to the national protests in the 1980s ensured that opposition to the regime was highly visible in the city centre resulting in a socially broadened opposition with a focus on youth rather than disenfranchisement and poverty Offering a detailed account of different forms of student activism this book evaluates the role of school and university students within the broader anti dictatorship opposition in Chile **Politics and the Art of Commemoration** Katherine Hite,2013-06-17

Memorials are proliferating throughout the globe States recognize the political value of memorials memorials can convey national unity a sense of overcoming violent legacies a commitment to political stability or the strengthening of democracy Memorials represent fitful negotiations between states and societies symbolically to right wrongs to recognize loss to assert distinct historical narratives that are not dominant This book explores relationships among art representation and politics through memorials to violent pasts in Spain and Latin America Drawing from curators art historians psychologists political theorists holocaust studies scholars as well as the voices of artists activists and families of murdered and disappeared loved ones Politics and the Art of Commemoration uses memorials as conceptual lenses into deep politics of conflict and as suggestive arenas for imagining democratic praxis Tracing deep histories of political struggle and suggesting that today s commemorative practices are innovating powerful forms of collective political action this work will be of great interest to students and scholars of international relations Latin American studies and memory studies *Fragments of Truth* Naomi

Angel,2022-08-15 In 2008 the Canadian government established a Truth and Reconciliation Commission TRC to review the history of the residential school system a brutal colonial project that killed and injured many Indigenous children and left a legacy of trauma and pain In *Fragments of Truth* Naomi Angel analyzes the visual culture of reconciliation and memory in relation to this complex and painful history In her analyses of archival photographs from the residential school system representations of the schools in popular media and literature and testimonies from TRC proceedings Angel traces how the

TRC served as a mechanism through which memory trauma and visibility became apparent. She shows how many Indigenous communities were able to use the TRC process as a way to claim agency over their memories of the schools. Bringing to light the ongoing costs of transforming settler states into modern nations, Angel demonstrates how the TRC offers a unique optic through which to survey the long history of colonial oppression of Canada's Indigenous populations. Oral History in Latin America David Carey Jr, 2017-03-27 This field guide to oral history in Latin America addresses methodological, ethical, and interpretive issues arising from the region's unique milieu. With careful consideration of the challenges of working in Latin America, including those of language, culture, performance, translation, and political instability, David Carey Jr provides guidance for those conducting oral history research in the postcolonial world. In regions such as Latin America, where nations that have been subjected to violent colonial and neocolonial forces continue to strive for just and peaceful societies, decolonizing research and analysis is imperative. Carey deploys case studies and examples in ways that will resonate with anyone who is interested in oral history. Remembering the Rescuers of Victims of Human Rights Crimes in Latin America Marcia Esparza, Carla De Ycaza, 2016-12-20 This book explores the significance of remembering the rescuers denouncing human rights crimes as well as protecting and sheltering targeted victims, including the dead, during the Cold War state violence in Latin America. In light of newly unearthed archival evidence, testimonial memories, and the continued mobilization of human rights groups to preserve Cold War memory, this timely book moves beyond the victim/perpetrator dichotomy and its discursive studies to focus on those whose moral courage and righteous acts were beacons of hope in the midst of extreme violence. Remembering Latin American righteousness, a term used in Holocaust literature, is important in recognizing that those who resisted human rights violations and protected victims yesterday are those who often keep the collective memory of that past alive today. Remembering Trauma in a Time of War Tamara Lea Spira, 2009 *The Jewish Struggle for Survival in the German-occupied USSR* Anika Walke, 2011 **Items & Issues**, 2004 **Commemorative Literacies and Labors of Justice** James S. Damico, Loren D. Lybarger, Edward Brudney, 2021-12-27 This book examines literacy practices of commemoration marking the 40th anniversary of the March 24, 1976 coup in Argentina. Drawing on research conducted across three distinct sites in Buenos Aires in March 2016: a public university, a Catholic church, and a former naval base and clandestine detention center transformed into a museum space for memory and justice, this book sheds light on the ways commemorative literacies at these locations work spatially to mobilize memory of the past to address and advance justice concerns in the present. These labors of justice manifest in three ways: as resistance, reconciliation, and recovery. Damico, Lybarger, and Brudney also demonstrate how these particular kinds of commemorative literacies resonate transnationally in ways that necessitate a commitment to commemorative ethics. This book is ideal not only for researchers, graduate students, and scholars in literacy studies but also for all those working in related fields, including memory studies, religious studies, area studies, and Latin American studies, to address issues pertaining to memory, testimony, transitional justice, state repression, and

human rights in Argentina Latin America or the Global South more generally *Journal of Peace Research* ,2007-07
