Sandset,2018-09-03 This book examines the ways in which mixed ethnic identities in Scandinavia are formed along both cultural and embodied lines arguing that while the official discourses in the region refer to a post racial or color blind era color still matters in the lives of people of mixed ethnic descent Drawing on research from people of mixed ethnic backgrounds the author offers insights into how color matters and is made to matter and into the ways in which terms such as ethnic and ethnicity remain very much indebted to their older racialized grammar Color that Matters moves beyond the conventional Anglo American focus of scholarship in this field showing that while similarities exist between the racial and ethnic discourses of the US and UK and those found in the Nordic region Scandinavia and Norway in particular manifests important differences in part owing to a tendency to view itself as exceptional or outside the colonial heritage of race and imperialism Presenting both a contextualization of racial discourses since World War II based on documentary analysis and new interview material with people of mixed ethnic backgrounds the book acts as a corrective to the blind spot within Scandinavian research on ethnic minorities offering a new reading of race for the Nordic region that engages with the idea that color has been emptied of legitimate cultural content      *Race and State* Karen Fricker,Ronit Lentin,2009-01-14

Speaking about racism in the western political climate of the first decade of the twenty first century is more difficult than ever before There is a feeling in post colonial and post immigration societies that the blatant overt racism of the past is no longer as pressing Admitting racism elicits discomfort because common wisdom tells us that racism opposes everything that we believe in as citizens of democratic civilised modern states Yet state racism appears to be here to stay and in many ways is more acceptable than ever before Immigration detention centres the deportation of failed asylum seekers and illegal immigrants racial profiling and the rolling back of liberties won by the civil rights movement are all examples of how state racism impacts on our daily lives Race and State contributes to breaking the taboo of discussing the links between race and state The papers collected in this book highlight the interconnections between race and state from historical theoretical or

contemporary sociological perspectives Part I of the book looks at theoretical issues in conceptualising the race state relationship Part II examines racism in its most pernicious contemporary manifestation the racialisation of terror Part III on the racial state s of Ireland is an important addition to the debate examining Ireland as a test case for demonstrating and interpreting the relationship between race and state      **Racism and Its Elimination** Sir Rupert John,1981      War or Common Cause? a Critical Ethnography of Language Education Policy, Race, and Cultural Citizenship Kimberly S.
