**Innovation and the State** Cristie Ford, 2017-12-07 From social media to mortgage backed securities innovation carries both risk and opportunity

Groups of people win and lose when innovation changes the ground rules Looking beyond formal politics this new book by Cristie Ford argues that we need to recognize innovation and financial innovation in particular as a central challenge for regulation Regulation is at the leading edge of politics and policy in ways that we have not yet fully grasped Seemingly innocuous regulatory design choices have clear and profound practical ramifications for many of our most cherished social commitments Innovation is a complex phenomenon that needs to be understood not only in technical terms but also in human ones Using financial regulation as her primary example Ford argues for a fresh approach to regulation which recognizes innovation for the regulatory challenge that it is and which binds our cherished social values and our regulatory tools ever more tightly together

**The Politics of the New International Financial Architecture** Susanne Soederberg,2004-11 Recent years have witnessed a veritable epidemic of financial crises from Mexico through South East Asia Russia Brazil and now Argentina The rich industrial countries led by the United States have had to respond This book examines the G7 s attempts over the past decade to re establish rules and a degree of order in the world financial system through the creation of the Financial Stability Forum and the G20 which they are calling the New International Financial Architecture Susanne Soederberg asks Why has the New International Financial Architecture emerged At whose initiative What does it involve What are the underlying power relations Who is benefiting Will it really work The author argues however that this tinkering with the capitalist system will not achieve either sustained economic growth or stability in financial markets let alone enhance the capability of developing countries to tackle the problems of mass poverty and social injustice
