It contains over 1 500 varying types of problems based on real world applications as well as in depth coverage of regression analysis and a thorough discussion of how to use the computer to estimate and test models. Computer Applications sections have been added to help students understand and interpret statistical output. New to the Fourth Edition: New chapter on statistical quality control covers process control charts, process capability and improvement. Hundreds of new computer exercises and problems with relevant data provided on a data disk. New Statistics in Action segments based on how to apply statistics and Streamlined coverage of probability and sampling.

**Statistics for Management and Economics** Gerald Keller, Brian Warrack, 2004 **STATISTICS FOR MANAGEMENT AND ECONOMICS ABBREVIATED SIXTH EDITION** is a subset of core chapters from the worldwide best selling and more comprehensive **STATISTICS FOR MANAGEMENT AND ECONOMICS** Sixth Edition 2003. This text teaches students how to apply statistics to real business problems through the authors unique three step approach to problem solving. Students learn to IDENTIFY the right technique by focusing on the relationship between the problem and data type. They then learn to COMPUTE the answer either by hand using Excel or using MINITAB, SPSS and JMP output and instructions appear on the text Web site. Finally they INTERPRET the results in the context of the problem. This approach enhances student comprehension as well as practical skills and offers maximum flexibility to instructors wishing to teach concepts by hand or with the computer or by using both hand and computer methods.
