Staying The Course:

Only Those who Believe Can Stay the Course in Turbulent Times Ole Ingstrup, Canadian Centre for Management Development, 1995 This document looks at a value based strategic approach to the management and development of corrections Topics covered are the following some recent data incarceration and public safety the need for a mission statement and system of values public spending and the public good and the challenge for the future The Ideology of Democratism Emily B. Finley, 2022 In The Ideology of Democratism Emily B Finley argues that history s most vocal champions of democracy from Jean Jacques Rousseau and Thomas Jefferson to John Rawls put forth an interpretation of democracy that effectively transforms the meaning of rule by the people into nearly its opposite Making use of democratic language and claiming to speak for the people elites of one sort or another politicians philosophers academics religious and many others advocate what they take to be the genuine will of the people even if it defies the actual historical popular will This book examines the origins underlying assumptions and major thrust of this powerful ideology Right to higher education Right to Education Initiative (UK), UNESCO, 2022-07-29 Higher education is too often dissociated from the right to education In many countries tuition fees are on the rise and only the privileged have access to or succeed in completing higher education making it difficult to argue that there is an actual right to higher education to be enforced However international human rights law is clear the right to education includes the obligation of states to ensure that higher education is made accessible to all based on capacity In addition states have an obligation to progressively introduce free higher education an obligation which is yet to be implemented globally Confronted with drastic changes worldwide in terms of rising inequalities human movement growing digitalization and the effects of the COVID 19 pandemic it is high time to clarify existing obligations as well as what aspects of the right to higher education might require further explanation considering new contexts and challenges This publication aims to help guide policy makers civil society and the international education community to fully enforce the right to higher education and ensure that the human rights based approach is placed at the heart of the higher education debate Organizational Wrongdoing as the “Foundational” Grand Challenge Claudia Gabbioneta, Marco Clemente, Royston Greenwood, 2023-07-24 Organizational Wrongdoing as the Foundational Grand Challenge Definitions and Antecedents consolidates and extends knowledge on the subject of organizational wrongdoing and highlights potential directions for future research Handbook of Artificial Intelligence in Higher Education Stefan Popenici, Jörgen Rudolph, Fadhil Ismail, Shannon Tan, 2025-12-16 This timely Handbook highlights the practical challenges and ethical considerations surrounding artificial intelligence AI in higher education An international array of experts pair empirical research with real world examples of AI implementation in teaching learning assessment and administration *The Impact of Digital Transformation and FinTech on the Finance Professional* Volker Liermann, Claus Stegmann, 2019-10-02 This book demystifies the developments and defines the buzzwords in the wide open space of
