*Mobilising Place Management* Claus Lassen, Lea Holst Laursen, 2020-11-12 Mobilising Place Management makes an important contribution to the mobilities field by arguing for the need to rethink place management It takes a point of departure in the mobilities turn and relational place thinking while exploring the relationship between place and mobility In a world of increasing mobility and global competition between nations cities and urban regions the managing of places seems more relevant than ever before By examining various examples of place and mobilities that range from the airport rural village tourist site port city to the city region this book argues that the management of places can be informed and enhanced by installing a greater awareness and understanding of mobility This insight could potentially improve the ability of current place management to translate a relational and mobilities orientated thinking into concrete actions instructions interventions designs plans policies and management control systems The book will be essential reading for researchers practitioners and students in the field of place management and across urban studies planning design geography sociology tourism transport and history      **A Select Library of the Nicene and Post-Nicene Fathers of the Christian Church**, 1952      *Plutarch's Lives: Aristides.-Marcus Cato.-Philopoemen.-T.Q.
