Crawford, Jochen Burgtorf, 2016-03-23 Seven hundred years after the dissolution of the order the trial of the Templars still arouses enormous controversy and speculation In October 1307 all the brothers of the military religious order of the Temple in France were arrested on the instructions of King Philip IV and charged with heresy and other crimes

In 1312 Pope Clement V at the Council of Vienne dissolved the order. Since the 1970s there has been increasing scholarly interest in the trial and a series of books and articles have widened scholars' understanding of causes of this notorious affair, its course and its aftermath. However many gaps in knowledge and understanding remain. What were the Templars doing in the months and years before the trial? Why did the king of France attack the Order? What evidence is there for the Templars' guilt? What became of the Templars and their property after the end of the Order? This book collects together the research of both junior and senior scholars from around the world in order to establish the current state of scholarship and identify areas for new research. Individual chapters examine various aspects of the background to the trial, the financial, political and religious context of the trial in France, the value of the Templars' testimonies and consider the trial across the whole of Europe from Poland and Cyprus to Ireland and Portugal. Rather than trying to close the discussion on the trial of the Templars, this book opens a new chapter in the ongoing scholarly debate.

Unknown Crusader Castles Kristian Molin, 2001-04-01 The capture of Jerusalem by the First Crusade in 1099 signalled the beginning of an armed struggle in Palestine and throughout the Eastern Mediterranean which lasted until the 15th century. It was a war dominated by the building, securing and besieging of castles rather than by pitched battles. Kristian Molin covers the military history of the crusades on a wider geographical scale than previous historians, taking in Armenia, Cyprus and Greece as well as the Holy Land. He also shows the role of castles as administrative, judicial and social centres in times of peace as well as in war. **Unknown Crusader Castles** provides a fresh perspective on the history of the crusades.

Byzantine and Modern Greek Studies, 2000 **Medieval Cyprus** Gwynneth Der Parthog, 2006 *The Latin Church in Cyprus, 1195-1312* Nicholas Coureas, 2016-12-05 This is a study of the first century of the Latin Church on Cyprus following the island's loss to the Byzantine empire and its conquest by Richard the Lionheart in 1195. It covers both secular and regular clergy and deals with the complex relations between church and crown, the nobility and the urban Latin population within the island as well as its relations with the papacy and the other Latin churches of the East. Not least it analyses the troubled relations between the Latin and the Orthodox churches. An important feature of the book is the new light thrown on the links between the Church of Cyprus and the Latin patriarchs of Jerusalem and Antioch and on the expansion of the Latin Church in the East in the Byzantine territories conquered following the Fourth Crusade. This book is the first in-depth account of the religious history of the Latin kingdom of Cyprus, which was the most durable of all the Latin states established by the Crusaders in the Eastern Mediterranean.

Kingdoms of the Crusaders Peter W. Edbury, 1999 This volume brings together a series of papers spanning a quarter of a century of research into the history and institutions of the Latin East from the late twelfth century to the end of the fourteenth. The Crusaders established two kingdoms in the Levant. Christmas Day 1100 saw the coronation of the first king of Jerusalem in the aftermath of the First Crusade. The Lusignans came to power in Cyprus in 1192 as the Third Crusade was drawing to its close and they ruled there as kings from 1197 until the 1470s. How these regimes fared in the

face of external enemies and internal pressures and how the westerners settled in the East structured their legal governmental and social affairs are the twin themes of this collection Archivum Fratrum Praedicatorum ,2006 **The Journal of Ecclesiastical History** Clifford William Dugmore,2003 *The Minorities of Cyprus* Andrekos Varnava,Nicholas Coureas,Marina Elia,2009 This book examines the various minorities living in the island of Cyprus from the early modern late Venetian and early Ottoman period down to the present day It charts their history with special emphasis on their relations with the powers ruling Cyprus and with the two dominant Christian Greek and Muslim Turkish communities The theme running through the book is that despite being significant members of Cyprus TM society the three historical minorities Maronites Armenians and Latins were only included in society to a certain extent by the two major communities This was formalised in the post independence 1960 period when they were compelled to become members of either dominant community and thus they suffered internal exclusion TM by being regarded as religious sub groups of one of the two dominant communities rather than national minorities in their own right Within this general context the social legal and political roles customs culture and language of the various minorities are examined as they evolved through time and in response to internal and external developments affecting Cyprus in the political economic and global spheres They are discussed not as static entities but as evolving groups that have adapted with greater or lesser degrees of success to the radical and at times painful changes Cyprus has undergone especially over the last 150 years in all walks of life Finally the question of what the future holds for the minorities of the island in the light of Cyprus TM EU membership and the prospect of reunification are also analysed This book is a product of the conference oeMinorities of Cyprus Past Present and Future which was held on 24 and 25 November 2007 at the European University Cyprus *Cyprus and the Devotional Arts of Byzantium in the Era of the Crusades* Annemarie Weyl Carr,2005 Professor Carr is concerned here with the devotional arts of the Byzantine world in the period from the twelfth to the sixteenth century The first set of studies deals with groups of illuminated manuscripts of the twelfth century mostly connected with the Eastern Mediterranean while the second focuses directly on Cyprus and its rich Orthodox visual heritage in the later Middle Ages As Byzantium s strongest bridgehead to the Crusades and its heir in the Levantine balance of power the island of Cyprus retains an exceptionally rich legacy of Byzantine culture and artifacts At the same time as the seat of the most enduring Crusader state it offers unparalleled testimony to the interplay of Greek and Latin cultural traditions as they accommodated and resisted one another under the pressure of Mamluk Mongol and Ottoman expansion *Humberti de Romanis Legendae Sancti Dominici* Humbert (de Romans),2008

The Hospitaller State on Rhodes and Its Western Provinces, 1306-1462 Anthony Luttrell,1999 This fourth collection of Dr Luttrell s studies on the military order of the Hospital concerns its activities on the island of Rhodes acquired between 1306 and 1310 where it struggled to contain the naval aggression of the Anatolian Turks and to settle the island and organise its society and economy At the same time it had to exploit its Cypriot possessions and its European provinces in

order to secure the manpower and resources needed to sustain its Eastern activities The author has spent over 40 years working in the Hospital s archives on Malta and elsewhere throughout the West studying the Hospitallers military and naval affairs their spiritual and medical activities and the organisation of their Western priories and commanderies These studies illustrate the workings of an extensive multi national corporation dedicated to the defence of Christendom **The Crusades** Alan V. Murray,2006-08-30 Publisher description **Pope Celestine III (1191-1198)** John Doran,Damian J. Smith,2008 These fifteen studies elucidate the life of one of the great figures of twelfth century Europe Hyacinth Bobone who became pope as Celestine III 1191 1198 They deepen our understanding of the objectives of the papacy and its relationship with Rome and the wider world in the period before Innocent III *Cyprus To-day* ,2007 *Templars and Hospitallers as Professed Religious in the Holy Land* Jonathan Riley-Smith,2010 In this book Jonathan Riley Smith attends to the Templars and Hospitallers primary role as religious orders not as military phenomena or economic powerhouses
