Isler presents modern day survival strategies based on the techniques of Japan's ancient ninja. If you find yourself in an unexpected extreme situation while wilderness camping, hiking, or adventuring off the beaten path, a fundamental understanding of your surroundings can make the difference between life and death. By harnessing the powers of nature, the ninja built a legendary reputation as survivalists with an ability to thrive in even the most inhospitable situations. By studying their ancient philosophy and techniques alongside modern science, you can prepare yourself to survive in any outdoor environment. Gain real survival skills for the modern day based in the Buddhist philosophy of the five elements: Earth, protection from the harsh elements using trees, leaves, dirt, grass, and vines to build shelter; Water, effectively cool off when overheated and avoid dehydration; Fire, properly use fire to warm the body and to purify water by boiling it; Wind, harness the power of wind to ventilate shelters, smoke meat, and help build fires; Void, apply knowledge and creativity while developing a survival plan. Isler has over 20 years of experience as a martial artist, Special Forces soldier, and security expert. With over 135 full color photos and 60 illustrations detailing these time-tested methods, this book offers insights that are extremely practical. The foreword by Ninjutsu master Stephen K.
