*Authoritarian Capitalism in the Age of Globalization* Peter Bloom, 2016-03-25 Exploring the rise of authoritarian capitalism this book offers a fresh perspective on politics and economics in the present age of globalization It asks the crucial question of whether individuals and nations can break free from the grip of authoritarian capitalism in the twenty first century Peter Bloom includes a detailed and in depth analysis of how marketization is promoting political authoritarianism across the world He tells a story of authoritarian progress where capitalist prosperity can only be delivered by the coercive rule of self disciplining nations and disciplining trans national institutions and in which capitalist sovereignty is replacing liberal and social democracy In doing so Bloom helps readers rethink the structural as well as discursive role of sovereign power within capitalism showing the ways the free market relies upon a range of authoritarian political fantasies not just for its growth but its very survival
