**Spelling Patterns and Rules for 5th Graders** Joanne Rudling,2018-08-03 This colorful fun book is ideal for kids ages 10 11 who are struggling with American spelling and phonics It focuses on areas that other spelling books and schemes ignore improving visual memory using memory tricks noticing letter patterns knowing spelling rules exceptions building words with prefixes and suffixes understanding the history of spelling and why spelling is the way it is Using a combination of well known proven literacy techniques and spelling strategies this book will help kids learn remember and

improve their spellings while reinforcing and building spelling knowledge confidence and love of spelling and writing The book is a great resource for teachers and tutors too because it explains why these tricky spellings are the way they are including the rules and history of them so you can answer those awkward questions about them The book also provides some great ideas for exercises group work and games in the classroom The curriculum for this book has been taken from the UK statutory curriculum for this age group and consultations with US teachers Reviews feedback Graham J Spooner of The Sensible Tuition CompanyI enjoyed reading through the first little section actually with the tricks and tips for how to develop your spelling This is exactly the sort of thing that my students are asking me for advice on regularly and there are a lot of things in here that I know will be directly useable in lessons I like the gap filling exercises again something like this makes the book a GREAT resource for a tutor or teacher as we could lift adapt these exercises for 1 1 work I like the way you ve really opened up the material with the word lists Again speaking from the perspective of a private tutor I think this is particularly useful as a resource to test a student s understanding perhaps bringing these words into a game of hangman or other gap fill exercises The grammar bits were quite memorable I like your no nonsense approach and voice that you have here It s just useful stuff delivered without unnecessary padding but still accessible I think that overall the book definitely fills a gap by getting students actually looking at words decoding them and building their intuition about how they are made remade and deconstructed It s also got a nice balance in its content in that it is accessible to a student at 10 11 but also useful for a tutor to adapt and create exercises from without much stress I really like the use of colour throughout I also really enjoyed the history bits too e g about Latin roots of words very interesting From Jessica and Roman McA My son didn t lose concentration and worked for 20 mins without one single complaint He really liked the word searches He said writing sentences and drawing pictures was fun He also liked filling in the missing letters which I think is a brilliant way of really taking in the sequence of the letters Roman scored really well on the tests which is pretty good considering he hates spelling Maria Parada teacher We definitely need this type of program for students We currently do not have a spelling program in our district Some teachers teach spelling unfortunately most do not I am the type of learner that needs to understand why something is the way it is I really only got that from your program I appreciate you so MUCH Many students needs to know why spelling is the way it is and not just memorize words
