Statecraft and Political Economy on the Taiwan Frontier, 1600-1800 John Robert Shepherd, 1993      **pingStatecraft and Political Economy on the Taiwan Frontier 1600-1800** ,1994      *China's Borderlands under the Qing, 1644-1912* Daniel McMahon, 2020-12-30 This book explores new directions in the study of China's borderlands In addition to assessing the influential perspectives of other historians it engages innovative approaches in the author's own research These studies probe regional accommodations the intersections of borderland management martial fortification and imperial culture as well as the role of governmental discourse in defining and preserving restive boundary regions As the issue of China's management of its borderlands grows more pressing the work presents key information and insights into how that nation's contested fringes have been governed in the past      Heaven Does Not Block All Roads Anna Beth Keim, 2025-04-17 Huang Chin tao was born in 1926 when Taiwan was still part of the Japanese Empire By the time he died in 2019 Taiwan was a bustling high tech democracy and Huang had lived through every twist and turn along the way He served as a Japanese soldier in China during World War II joined an armed uprising against Taiwan's Chinese Nationalist post war government spent twenty four years imprisoned during the island's decades of martial law and finally emerged to help lead the pro democracy movement of the 1980s in his hometown Taichung Drawing upon archives memoirs interviews and more Anna Beth Keim tells the story of Taiwan through the journey of one extraordinary individual From his childhood scuffling with Japanese children to his transformation into a democracy farmer Huang's life vividly reflects contemporary Taiwanese history and continues to inspire young Taiwanese today who are fighting to keep their home independent Over roughly a century the island transitioned from an imperial outpost to an authoritarian state to a democracy one still at risk of being snuffed out by China This story is uniquely Taiwanese yet illuminates experiences shared by countries everywhere of colonisation and its aftermath and the ongoing struggle to be free      **Lee Teng-hui and Taiwan's Quest for Identity** S. Tsai, 2005-09-02 The book is an account of Taiwan's evolving national consciousness told through the biography of its former President Lee Teng hui the central figure in the island's political transformation over the past two decades In describing the broader historical and social context of the various stages of Lee's life the book also analyzes Taiwan's own evolution during the past century as a Japanese colony a Leninist party state dictatorship and then an American inspired fledgling democracy The book explores such questions as Is Lee Teng hui an opportunistic recidivist who is interested only in his own self preservation or is he a hero who not only propelled Taiwan into a new era but also constructed a new national identity for the islanders Are the multi ethnic islanders culturally Chinese or are they Taiwanese Is Taiwan historically and politically part of China or does it have its own history and identity and deserves international recognition as an independent sovereign country      A Passion for Facts Tong Lam, 2011-10-29 This fascinating book is a fundamental contribution to the global history of social science Tong Lam demonstrates how Chinese reformers struggled to build a modern society on a foundation of facts and statistics

Their ambitions were no mere dream but were made real in a prodigious social survey movement which aimed as much to enlighten peasants as to inform administrators Theodore Porter author of *Trust in Numbers* Lam's approach is highly original *A Passion for Facts* presents an impressive host of new material from Chinese and American archives that challenges interpretations of China and Chinese exceptionalism or independent development Lam makes a compelling argument that the techniques developed in the early twentieth century and refined over several decades have been critical to state building in China James L. Hevia author of *English Lessons: The Pedagogy of Imperialism in Nineteenth Century China* Lam supersedes the current China centered approach and the earlier framework that explained modern China in light of global colonialism He illuminates how the search for facts empowered modern Chinese to reimagine their social and political realities in a global colonial context Benjamin A. Elman Chair East Asian Studies Department Princeton University

**The "One China" Dilemma** P. Chow, 2008-04-28 The new developments across the Taiwan Strait have illuminated the dilemma of the One China policy which could mislead to inconsistent or even contradictory policies and result in devastating military confrontation between China and the U.S. and possibly Japan

**Sugar and Society in China** Sucheta Mazumdar, 2020-10-26 In this wide ranging study Sucheta Mazumdar offers a new answer to the fundamental question of why China universally acknowledged one of the most developed economies in the world through the mid eighteenth century paused in this development process in the nineteenth Focusing on cane sugar production domestic and international trade technology and the history of consumption for over a thousand years as a means of framing the larger questions the author shows that the economy of late imperial China was not stagnant nor was the state suppressing trade indeed China was integrated into the world market well before the Opium War But clearly the trajectory of development did not transform the social organization of production or set in motion sustained economic growth

**De dagregisters van het kasteel Zeelandia, Taiwan, 1629-1662**, 2000 The Dutch settlement on Taiwan island between 1629 and 1661 was unique in many respects It was on Taiwan that the United East India Company first attempted to colonise and develop a country on a grand scale In addition the Zeelandia fort acted as the hub of all VOC trade in the South China Sea The best sources for studying this period are the daily registers as they give a clear picture of everyday life in and around the fort They also offer a wealth of information about scouting expeditions conversions to Christianity education trade relations with China Chinese immigration and the eventual expulsion of the Dutch Indeed as far as the history of Taiwan in the 17th century is concerned the daily registers are practically the only source available The edition of the daily registers consists of a transcript of the text and introductions to successive volumes Gaps in the text have been filled using other source material from the VOC for example letters that were sent over The documentary edition spans four volumes The project was implemented by the University of Leiden with occasional support from Taiwanese foundations and in close collaboration with Taiwanese experts All four volumes of the edition are being translated into Chinese by Professor Chiang Shu-sheng the first volume of which has

already been published in Taiwan To facilitate research in the VOC archives an online general VOC glossary has been compiled based on separate glossaries explanations of terms that were published in the Dutch series Rijks Geschiedkundige Publicati n RGP [http://www.historici.nl/Onderzoek/Projecten/DeVocOpTaiwan1629-1662/index\\_html\\_en](http://www.historici.nl/Onderzoek/Projecten/DeVocOpTaiwan1629-1662/index_html_en) sthash Vf9dpYPJ dpuf
