Steam Finale:

Riding Yorkshire's Final Steam Trains Keith Widdowson,2015-02-02 Keith Widdowson visited the North Eastern Region of British Railways on over forty occasions during the final eighteen months of steam powered passenger services With the odd exceptions usually for railtours most of the locomotives were neglected run down filthy prone to failure and often only kept their wheels turning courtesy of the skills of the crew coaxing them along with loving care Far from the scenic delights so often justifiably portrayed of the Yorkshire countryside the ever dwindling numbers became corralled within the industrialized heartland of Bradford Leeds Wakefield and Normanton Here Widdowson recalls that bygone era leading an almost nomadic nocturnal existence on his self imposed mission of stalking the endangered Iron Horses in one of their final habitats He was often far from alone in his quest The Haulage bashing fraternity comprised of like minded enthusiasts from throughout Britain often congregated lemming like on the one coach early morning mail trains the Summer Saturday holidaymaker trains or the Bradford portions indeed any passenger service with a steam locomotive at its front From the many disappointments of thwarted possibilities to the euphoric joy of unexpected catches together with over 130 contemporary images Riding Yorkshire's Final Steam Trains is a compelling snapshot of the race against time at the end of the golden age of steam

Southern Steam: January-July 1967 Alan J. Goodwin,2018-01-30 At the beginning of 1967 the writing was clearly on the wall for Southern Steam with the intention of eliminating it altogether on the 18th June of that year From the 2nd January with the Brush type 4s working many main line trains including the Bournemouth Belle steam was reduced to thirteen departures from Waterloo three of which were in the early hours From the 3rd April this was further reduced to just five day and three night time departures However by this time it was realized that due to late delivery of the new electric stock the deadline for the demise of steam was put back to the 9th July and an interim timetable introduced from 12th June Using information gathered from many sources Countdown to Extinction chronicles the events of 1967 with the final five weeks in detail including events that formed the background to the time
