## **Steam On Shed:**

**Modelling Engine Sheds and Motive Power Depots of the Steam Era** Terry Booker, 2016-02-29 Many railway modellers include an engine shed somewhere on their layout. However, all too often the shed is squeezed into a quite improbable location and is little more than a place to park engines when they are not in use. This well illustrated and comprehensive book written by an experienced railway modeller helps even the beginner to develop a far more realistic approach and to capture the unforgettable grimy but exciting atmosphere of the locomotive shed in the steam era. The book covers all types of engine shed from the branch line sub shed to the main line motive power depot and discusses research planning the building process, readily available materials and simple tools. It goes on to explain how to obtain the very best from kits, how to site and operate sheds and how to make them look authentic. It demonstrates the construction of over a dozen kits including off the shelf kits and the newest computer downloadable kits and shows the modeller how to create special dioramas depicting the whole shed scene and how to scratch build complete sheds including coal stages and other infrastructure. With further advice for those with a limited amount of space and top tips throughout this is essential reading for modellers of all abilities who wish to incorporate a realistic locomotive shed of the steam era into their layout. Well illustrated with 323 colour photographs. [Blue Book](#) New South Wales. Bureau of Statistics and Economics, 1892

*Gloucester Locomotive Sheds* Steve Bartlett, 2018-10-30 Gloucester Locomotive Sheds is the latest in a series of in depth studies of motive power depots during the latter days of steam looking closely at their changing engine allocations and operational responsibilities. At the time Gloucester was a busy and fascinating rail center where ex GWR and ex LMS Midland Railway routes met each with main line passenger and freight services local passenger trains and extensive freight trips providing an endless panorama of railway activity. The principal ex GWR Gloucester Horton Road and ex LMS Midland Railway Gloucester Barnwood motive power depots are covered in depth with their locomotive allocations operational duties and changing responsibilities over the years fully described. Not forgotten are both depots sub sheds at Brimscombe Cheltenham Malvern Road Lydney Ross on Wye Dursley and Tewkesbury along with the duties and local routes that they covered. This in depth study is supported by over 200 well chosen black and white photographs many of which are previously unpublished and each of the motive power depots covered are supported by detailed plans of the shed layouts. This new book follows the same authors successful Hereford Locomotive Shed published in October 2017. Further books are planned in the series.

*Scottish Steam's Final Fling* Keith Widdowson, 2017-05-01 In May 1967 Scotland became the third of the six British Railways regions to dispense with the steam locomotive, bringing an iconic era of Britain's transport heritage closer to its demise. Residing over 300 miles away, then-teenaged Keith Widdowson's pilgrimages north of the border were marathon undertakings. Abysmal overnight time keeping, missed connections, trains allegedly booked as steam but turning up as diesel; each journey could have been a disaster, but those setbacks were easily forgotten after many successes such as in catching runs with LNER A2s, A4s, V2s, and B1s, as well as BR Clans. Accompanied with brief historical data of routes and stations many no longer extant, visited alongside photographs from the author's archives, this book is a collection of reminiscences from the final two years of steam that anyone with a penchant for railways will enjoy.

**Railway Man**

Mitchell Deaver, 2013-01-16 *Railway Man* begins with author Mitchell Deaver paying a nostalgic visit to Bickle signal box, the base of boyhood adventures described in his first book *Railway Boy*. Shortly after he leaves rural Yorkshire for life in the big cities. It is 1968. *Railway Man* describes the emotionally devastating draw down of steam traction on British Railways. Three steam sheds remain: Carnforth, Lostock Hall, and Rose Grove. The end comes when the last steam train runs on 11th August. The total steam ban is unbearable. Mitchell Deaver's brainchild, the Return to Steam Committee, tries to get steam back on British Railways. In 1980, Mitchell Deaver achieves a boyhood dream and becomes a signalman on the busy North London Line. *Railway Man* describes the realities of operating a mechanical signal box, one that is open continuously. Life as a signalman is not without incident. A mischievous letter prompts a visit from senior management. Signal box operations

degenerate into a scene from the Marx Brothers A signalmen s night out turns into a baffling conspiracy In this true story set in the cities of Birmingham Liverpool and London and spanning two decades Railway Man describes a monumental battle between on one side Mitchell Deaver s love of railways and on the other forces that try to draw him elsewhere Which side wins    **Railway Accidents** Great Britain.
