Research Brief** National Institute for Excellence in Teaching (NIET),2010 Teachers are the most important school related factor for student achievement gains but evaluation of teacher performance is seldom conducted in any rigorous way As policymakers call for a better approach to teacher evaluation the 10 year history of TAP TM The System for Teacher and Student Advancement provides an example of an integrated system for teacher evaluation and support TAP teachers are evaluated every year through multiple classroom observations by trained and certified raters and through their contributions to student achievement growth Based on data from TAP schools research shows that 1 TAP teacher evaluations provide differentiated feedback on teacher performance 2 TAP classroom evaluations are aligned with value added student achievement outcomes 3 TAP teachers become more effective over time and 4 TAP schools show higher retention of more effective teachers and higher turnover of less effective teachers Creating the capacity for evaluation and evaluation guided improvement in schools requires the right tools as well as the sustained engagement of teachers and leaders The example of TAP implies that teacher evaluation should not be pursued as a one time one size fits all policy prescription but should be integrated within a comprehensive site based system with specific practical elements to support teachers and improve teaching and learning in the classroom Contains 7 figures and 5 footnotes For A Teacher Evaluation System That Works Working Paper see ED533380 ***Research in Education ,1966 A Teacher Evaluation System That Works. Working Paper*** Glenn Daley,Lydia Kim,2010 Status quo approaches to teacher evaluation have recently come under increasing criticism They typically assign most teachers the highest available score provide minimal feedback for improvement and have little connection with student achievement growth and the quality of instruction that leads to higher student growth A more comprehensive approach has been demonstrated for ten years by TAP TM The System for Teacher and Student Advancement This system includes both classroom observations and student achievement growth measures provides feedback to teachers for improvement is aligned to professional development and mentoring support and provides metrics for performance based compensation This paper describes the TAP system and examines data from a large sample of teachers to assess the distribution of TAP evaluations and their alignment to student achievement growth We find that TAP evaluations provide differentiated feedback that classroom observational scores are positively and significantly correlated with student

achievement growth that TAP teachers increase in observed skill levels over time and that TAP schools show differential retention of effective teachers based on these evaluation scores Appended are 1 Components of the TAP Skills Knowledge and Responsibilities Performance Standards and 2 Weighting in the Skills Knowledge and Responsibilities Score Contains 15 figures 3 tables and 3 footnotes For A Teacher Evaluation System That Works Research Brief see ED533381 [Resources in Education](#),1996-10
