Tent Life in Siberia George Kennan, 2018-10-05 The attempt which was made by the Western Union Telegraph Company in 1865 66 and 67 to build an overland line to Europe via Alaska Bering Strait and Siberia was in some respects the most remarkable undertaking of the nineteenth century Bold in its conception and important in the ends at which it aimed it attracted at one time the attention of the whole civilised world and was regarded as the greatest telegraphic enterprise which had ever engaged American capital Like all unsuccessful ventures however in this progressive age it has been speedily forgotten and the brilliant success of the Atlantic cable has driven it entirely out of the public mind Most readers are familiar with the principal facts in the history of this enterprise from its organisation to its ultimate abandonment but only a few even of its original projectors know anything about the work which it accomplished in British Columbia Alaska and Siberia the obstacles which were met and overcome by its exploring and working parties and the contributions which it made to our knowledge of an hitherto untravelled unvisited region Its employees in the course of two years explored nearly six thousand miles of unbroken wilderness extending from Vancouver Island on the American coast to Bering Strait and from Bering Strait to the Chinese frontier in Asia The traces of their deserted camps may be found in the wildest mountain fastnesses of Kamchatka on the vast desolate plains of north eastern Siberia and throughout the gloomy pine forests of Alaska and British Columbia Mounted on reindeer they traversed the most rugged passes of the north Asiatic mountains they floated in skin canoes down the great rivers of the north slept in the smoky pologs of the Siberian Chukchis chook chees and camped out upon desolate northern plains in temperatures of 50 and 60 below zero The poles which they erected and the houses which they built now stand alone in an encircling wilderness the only results of their three years labour and suffering and the only monuments of an abandoned enterprise

Tent Life in Siberia George Kennan, 2019-11-26. In *Tent Life in Siberia*, George Kennan presents a riveting memoir that chronicles his experiences during an expedition to the remote and harsh landscapes of Siberia in the late 19th century. Written with a keen eye for detail and imbued with a reflective personal narrative style, the book combines travelogue with philosophical introspection, shedding light on the natural beauty and the stark realities of life in this unforgiving region. Kennan's rich observations not only capture the essence of Siberia's diverse environments but also provide insights into the cultural dynamics of its inhabitants, framed against the backdrop of the geopolitical tensions of the era. George Kennan, an American diplomat and historian, is renowned for his deep understanding of Russian affairs, an expertise likely cultivated through his travels and experiences. His commitment to illuminating the complexities of Russian life and culture can be traced back to his formative years, which included extensive travels across Europe and an intrinsic curiosity about the sociopolitical landscapes he encountered. *Tent Life in Siberia* thus serves not merely as a travel narrative but as a profound reflection influenced by his background and the broader historical context of his time. I highly recommend *Tent Life in Siberia* to readers intrigued by exploration literature as well as those keen on understanding the intricate relationship between environment and humanity in a bygone era.
