Story Of Silky:

A Global History of Silk Pierre Vernus, Manuela Martini, Tomoko Hashino, 2024-08-01 This book explores the global development of the production and trade of silk and related industries from a historical perspective. From the sixteenth to the twentieth century, it takes long-term movements and global dynamics into account. Covering a wide geographical area including East Asia, Northern and Southern Europe, and North America, the respective contributions examine economic activities related to silk production, silk processing, trading, and consumption of silk and silk fabrics, while also highlighting diverse paths of industrialization and economic development. The book is divided into three parts, the first of which features contributions on silk markets and trade, covering topics such as auction sales and Sino-European trade. The second part addresses issues of work organization, institutional developments, and the gendered division of labour, discussing topics such as systems of home-based and factory production and the organization of quality control. In turn, the third part highlights technological innovations and knowledge transfer. This book appeals to scholars and students of economic history who are interested in a better understanding of the key features and patterns in the development of the silk industry and trade and more widely in the global economic history of the early modern and modern periods. *Reading Champion: Magic Faraway Tree: Silky's Cakes* Jackie Walter, 2025-08-14 Introducing the characters of Enid Blyton's *Magic Faraway Tree* to a young audience with these fun new adventures, especially written for children beginning to read. Each story is accompanied by colourful illustrations to engage the young reader and support the text. In this story, Silky the fairy is busy baking cakes. But each time she makes some, they seem to disappear. *Reading Champion* is an independent reading programme carefully levelled to match book bands widely used in schools. This book is suitable for readers aged 4 and has been levelled at book band Pink 1B. *Beyond the Silk and Book Roads* Michelle C. Wang, Ryan Richard Overbey, 2023-11-27 Silk Road studies has often treated material artifacts and manuscripts separately. This interdisciplinary volume expands the scope of transcultural transmission questions, what constituted a book, and explores networks of circulation shared by material artifacts and manuscripts. Featuring new research in English by international scholars in Buddhist studies, art history, and literary studies, the essays in *Beyond the Silk and Book Roads* chart new and exciting directions in Silk Road studies. Contributors are Ge Jiyong, George A. Keyworth, Ding Li, Ryan Richard Overbey, Hao Chunwen, Wu Shaowei, Liu Yi, Lan Wu, Sha Wutian, Michelle C. Wang, and Stephen Roddy. *On The Ancient History Of The Silk Road* Chuanming Rui, 2021-05-28 The Silk Road was a network of trade routes which connected the East and West and was central to the economic, cultural, political, and religious interactions between these regions from the 2nd century BCE to the 18th century. This book studies various aspects of the ancient history of the silk road. The 16 chapters in the book are divided into three parts: Silk Road and The Nomads, The Sogdians, the Special Role on the Silk Road, Silk Road and the Spread of Religious Ideas. It studies the purpose and effects of silk exportation, the intermarriage between China and other ethnic groups, the origin of the Turks, the influence and

domination of the Sogdians on the nomads and the religious ideas especially the Manicheism spreading across the Silk Road
