Story Of The Taranto Raid:

Taranto Christopher O'Connor, 2025-02-14 During World War II on the night of November 11th 1940 The British Royal Navy launched the first all aircraft ship to ship naval attack against the Italian Navy Taranto The Raid The Observer The Aftermath tells the story of this raid and its significance to the attack on Pearl Harbor one year later More than a year before the attack on Pearl Harbor aircraft of the Royal Navy s Fleet Air Arm executed a surprise attack on ships of the Italian Fleet anchored in the harbor of Taranto The raid on Taranto anticipated the attack on Pearl Harbor and historians have seen it as a precursor to the larger and more devastating strike by the Imperial Japanese Navy The Taranto raid takes on added significance with the little known fact that an officer of the US Navy was aboard the British aircraft carrier and reported extensively on the attack to the Office of Naval Intelligence in Washington For the first time this book tells the entire story of Taranto and its relevance to Pearl Harbor The book describes the attack in detail and clears up mistakes and misconceptions that appeared in previous publications The damage was done by 21 planes flown off the deck of HMS Illustrious with daily reconnaissance flights of the Royal Air Force Illustrious took to sea the radar and aircraft control procedures that helped win the Battle of Britain From British sources the book describes the techniques used to allow the successful use of aerial torpedoes in the shallow waters of Taranto harbor About the Author Christopher O Connor earned a BA from Union College and an MBA from Northwestern University For fifteen years he worked as a hospital administrator In 1993 he began a new career as a full time father to five children His wife Susan is a dentist in private practice since 1987 The development of this book began with a footnote in Prange s At Dawn We Slept This is his first book but he has previously published articles in hospital management journals and op ed pieces in newspapers The book is based on original research in the National Archives in Washington DC Born in Springfield MA Mr O Connor now lives in the Blue Ridge Mountains of Southwest Virginia Swordfish David Wragg, 2005-01 The daring British air raid that inspired the Japanese attack on Pearl Harbor In November 1940 Britain was isolated in its stand against Nazi Germany and its ally Italy The country could not afford to lose control of the Mediterranean but the Royal Navy was already overstretched by the U boat war and the threat of invasion Italy s fleet of modern battleships presented a grave threat to our communications with Egypt and the Suez Canal On the night of 11 November 1940 42 members of the Fleet Air Arm took off in 21 obsolete Swordfish biplanes launched from HMS Illustrious Their target the Italian fleet anchorage at Taranto Pressing home their attack in the face of intense anti aircraft fire and searchlights they torpedoed and sank three battleships Incredibly all but two of the biplanes survived The Italian fleet was crippled and the world took note that Britain was far from defeated No one was more impressed than the Japanese who noted how a fleet in harbour could be demolished by air attack In this new account of the Royal Navy s most daring operation of the Second World War David Wragg draws on British and Italian records as well as interviews with the aircrew to tell the full story of a night that changed the course of the war **Air Force and Space Digest** ,2017 **Air Force**

Magazine ,2017 **Taranto 1940** Angus Konstam,2015-11-20 The Royal Navy's attack on Taranto in 1940 heralded a new age of warfare. It was the decisive moment in a struggle for dominance of the Mediterranean that had gone on for months as the British and Italian navies both looked to secure maritime supply routes for their colonies. With the enormous demands of a global war beginning to tell, the British capital ships were simply too thinly spread for a large fleet action against Taranto where the bulk of the Italian fleet lay menacingly. How was the Royal Navy to eliminate the threat of the Regia Marina? This is the story of one of World War II's most devastating raids, recounting how a handful of obsolete Fairey Swordfish biplanes swooped in and destroyed an Italian battleship and badly damaged two more. With expert analysis, detailed colour illustrations and a gripping narrative, this book explains the origins of the attack, its planning and execution and what happened in the aftermath.

Taranto 1940 A. J. Smithers, 1995-11-01 In the long history of the British Isles few years can stand in comparison with 1940 in terms of unrivalled gloom. The fiasco in Norway, the evacuation of the BEF from Dunkirk, the fall of France and the entry of Italy into the war were hardly offset by the success of the Royal Air Force in the Battle of Britain and the failure of the Italian troops in their attempted invasion of Egypt. Near the end of the year, however, there occurred an event which is remarkable not only for its dramatic effect on the course of the war but for the fact that it has virtually disappeared from public memory. This was the sinking of the better part of the Italian Fleet in Taranto harbour, which at one stroke gave the Royal Navy control of the Eastern Mediterranean, somewhat ironically referred to by the Italians as Mare Nostrum. Perhaps even more remarkable, as A. J. Smithers describes in this book, enlivened as always and as critics have frequently remarked by his mordant wit and extraordinary breadth of knowledge, was the means by which this feat was achieved. In November 1940 the aerial torpedo was in its infancy while its carrier, the Swordfish, known as the Stringbag, looked more like something left over from the previous war. But flying at night and against all the odds, the pilots observed achieved their objective and with one mighty stroke totally altered the balance of maritime power in the Mediterranean at last for the foreseeable future.

A Battle History of the Imperial Japanese Navy Paul Dull, 2012-12-12 For almost 20 years more than 200 reels of microfilmed Japanese naval records remained in the custody of the U.S. Naval History Division, virtually untouched. This unique book draws on those sources and others to tell the story of the Pacific War from the viewpoint of the Japanese. Former Marine Corps officer and Asian scholar Paul Dull focuses on the major surface engagements of the war: Coral Sea, Midway, the crucial Solomons campaign and the last ditch battles in the Marianas and Philippines. Also included are detailed track charts and a selection of Japanese photographs of major vessels and actions.
