SIZE MATTERS From the dragons of legend to Jack the Giant Killer's colleague to King Kong and Godzilla people have found the idea of giant creatures both scary and fascinating Why so many should find accounts of a critter big enough to gulp down a puny human like an insignificantly small hor d oeuvre or step on said human and leave a grease spot might be explained by the psychologists but such yarns are undeniable fun and here's a book crammed full of things that you can't outrun because they take big steps by writers with equally large reputations including David Drake best selling author of the Hammer's Slammers and RCN series describes the far future plight of an unusual descendant of present day humans who's being pursued by the descendants of another species which are much larger than they were in our time Robert Bloch winner of the Hugo award and the lifetime achievement award of the World Fantasy Convention and author of the classic horror novel *Psycho* introduces an unusual orphan and aspiring thespian who was much more than he seemed and was destined to play the biggest role of anyone's lifetime Philip Wylie co author of the SF classic *When Worlds Collide* and other imaginative works tells of the arrival of a very very tall giant on Earth and what happened next in a sharp edged satiric tale Murray Leinster known as the Dean of Science Fiction Writers spins a yarn of a stranded starship whose crew must get replacement parts from an abandoned outpost in order to take off again if they can reach the outpost through the swarming gigantic insect life of the planet H P Lovecraft renowned master of horror is on board with a story of a star spawned thing which was not only huge but invisible as well Plus all new stories by New York Times best selling author Larry Correia and award winning authors Sarah A Hoyt and Wen Spencer And much more At the publisher's request this title is sold without DRM Digital Rights Management About some of the contributors \_ David Drake is a superb storyteller Library Journal \_ Robert Bloch has become a virtual fixture on the popular culture landscape Publishers Weekly \_ Don't plan on getting anything else done if you start a Wen Spencer novel they are exceedingly hard to put down Catherine Asaro Nebula Award winning author \_ Sarah A Hoyt's science fiction is exciting and appealing so fast paced the reader will reach escape velocity Kevin J Anderson \_ H P Lovecraft was the twentieth century's greatest practitioner of the classic horror tale Stephen King      Supernatural Fiction Writers Richard Bleiler, 2003 The Scribner Writers Series has set the standard for literary reference for more than 25 years In addition to addressing the lives and careers of important writers the articles discuss the themes and a styles of major works and place them in pertinent historical social and political concerns for today's readers Novelists playwrights essayists poets short story writers and more recently genre writers in science fiction and mystery are all expertly discussed in the more than 17 sets comprising this series To see listings of writers for any volume in this section go to the Scribner Writers Series section online at [www.gale.com](http://www.gale.com) scribners J K Rowling Peter Straub Anne McCaffrey these are among the many widely read authors in fantasy and horror

genres covered in this addition to Scribner's 1985 two volume set *Essays* written by scholars yet accessible to the general reader and student treat both writers who have risen to prominence since the 1985 edition and those whose careers have continued since original coverage such as Stephen King Ursula K LeGuin and Harlan Ellison The index cumulates the index from the first two volumes

**Science Fiction Writers** Richard Bleiler, 1999 On science fiction authors *Amazing Stories*, 1993 *Things Will Never be the Same* Howard Waldrop, 2007 The only problem with *THINGS WILL NEVER BE THE SAME* is that it's not nearly long enough Sure sure it's chock full of great stories by the best short fiction writer of his generation modern classics like *The Ugly Chickens* and *Flying Saucer Rock n Roll* and *Heart of Whitenesse* and many more but there are two or three times as many terrific Waldrop stories equally good and sometimes even better that have been left out for want of space There's only one solution Read this book and then go out and track down all of Waldrop's other collections and read them too
