Dog Control and Welfare Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee,2013-02-15

DEFRA s belated proposals to tackle irresponsible dog ownership are too limited Since 2007 dogs have killed seven people including five children in private homes The NHS also spends over 3 million annually treating dog attack injuries Some eight assistance dogs a month and thousands of livestock annually are attacked by dogs The Home Office approach to tackling antisocial behaviour is too simplistic and fails to reflect the impact that poor breeding and training by irresponsible owners can have on a dog s behaviour New rules should give enforcement officers more effective powers including Dog Control Notices to prevent dog related antisocial behaviour Local authorities need to devote more resources to the effective management of stray dogs MPs call for changes in the legislation to give powers to extend the banned list to include other dogs with particularly aggressive characteristics At the same time those tasked to enforce legislation should have the discretion to neuter rather than destroy a banned animal where a particular dog poses no threat The Advisory Council on Welfare Issues of Dog Breeding should be given a formal regulatory role to enforce standards Any breeder producing more than two litters per year should be licensed and subject to welfare checks The Kennel Club should stop registering puppies from breeders not compliant with its own Assured Breeder Scheme It should also commission an independent annual review of Breed Standards led by vets to eliminate health problems linked to breeding for exaggerated characteristics Lastly MPs call on websites advertising pets to develop a voluntary Code of Practice
