Hypernuclear and Strange Particle Physics HYP 2006 This conference series is devoted to the progress of our knowledge about strangeness flavor in hadron and nuclear physics Besides the traditional topics such as hadron structure hypernuclear spectroscopy and weak decay of hypernuclei a particular focus of this conference was on the properties of strange mesons and their binding in nuclear systems

The Strangeness of Beauty Ziba Ardalan,2021 What happens when delusion and reality merge in some unthinkable combination What is our reaction to such occurrences When and how does thoughtful reflection replace the initial shock What role does time play in the process What do we learn from such incidences The Strangeness of Beauty project was inspired by Ligeia an engaging short story by Edgar Allan Poe in which the Romantic writer and poet explores the interconnected aesthetic of strangeness in beauty The variety of thoughtful contributions to the project by artists the wider art community and Ziba Ardalan in her introductory texts suggest that such sensitivities are an inherent part of humanity 0Presented in 2021 as a digital magazine in twelve themed weekly issues The Strangeness of Beauty was after O Sole Mio the second digital project curated by Ziba Ardalan during the repeated lockdowns of the Covid 19 pandemic In it contemporary artists and other art professionals consider the concept of beauty in art and in their own practice how it appears in so many ways and how it is usually the intriguing element of strangeness that makes the experience of true interest and value Thus parallels are drawn with the unprecedented challenges faced by humanity during the pandemic

Monstrous Liminality Robert G. Beghetto,2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and

chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability. The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity's denial of its own hybridization. This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re-assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom alienation nihilism and failure. These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial. In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society. However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality. The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself. This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any.
