**The Future Shape of Preaching** Thor Hall, **The Future Shape of Christian Proclamation** Cleophus J. LaRue, Luiz C. Nascimento, 2020-08-03 Christianity is turning brown and moving south The Christianity the West has known is in recession and has all but dwindled out of recognition in the opening years of the twenty first century Well over half of the world s Christians now live in the Global South Africa Asia and Latin America They are according to Aberdeen missiologist Andrew Walls the new Representative Christians What they think about Christianity will matter more and more and what North America thinks about Christianity will matter less and less This massive shift in geography and theological point of departure will have a major impact on Christian preaching now and into the future The Future Shape of Christian Proclamation seeks to begin the conversation about how preaching in the Global South will inform the whole of Christian preaching in the coming years

Randolph, 2008-07-01 Deep faith meets high tech here in The Renewal of Preaching in the Twenty first Century A communications revolution is sweeping through the churches leaving some on fire and others burned out This work shows what makes the difference for church leaders and communities who are using new media to advance Christian preaching Join them by recovering the great tradition and expanding it through creative use encouraged by artists and filmmakers as well as preachers and professors This work explores ways to maximize the promise of preaching and confront the perils leading to the renewal of church and society Beginning with review of the situation today we proceed step by step through the preparation and presentation of the sermon leading to transformation The sermon in the local parish is seen as the microcosm of the macrocosm that is the communication of God s good news

A Reader on Preaching David Day, 2017-09-08 Every Sunday all over the world people rise up and claim to speak in the name of God It is an astonishing thing to do and an astonishing claim to make It is small wonder that the sermon has been the focus of debate discussion and investigation It has been dismissed as irrelevant in today s culture and has become the butt of numerous jokes and caricatures Yet the claim persists that these human words in some way can become God s message to these hearers This collection of twenty nine articles by international experts in the area of homiletics coincides with the revival of interest in preaching over the last twenty five years It is practical without being merely tips for preachers and it offers the necessary theoretical discussion for anyone who wants to take the art of preaching seriously No important issue has been omitted and taken as a whole the book constitutes a first class introduction to the principles processes context and theology of preaching Contributors include Walter Brueggemann David Buttrick Fred Craddock Edward Farley John Killinger Richard Lischer Thomas Long Elaine Lawless Jolyon Mitchell Cheryl Sanders and
