The Frankfurt Parliament 1848 1849:

The Frankfurt Parliament 1848-1849 Frank Eyck,1968 **Literature, the Volk and the Revolution in Mid-nineteenth Century Germany** Michael Perraudin,2000 Between the revolutions of 1830 and 1848 poverty reached new extremes in Germany as in other European countries and gave rise to a class of disaffected poor leading to the widespread expectation of a social revolution Whether welcomed or feared it dominated private and public debate to a larger extent than is generally assumed as is shown in this study on the reflections in literature of what was called the Social Question Examining works by Heine Eichendorff Nestroy B chner Grillparzer and Theodor Storm the author reveals an acute awareness of political issues in an era in literature which is often seen as tending to quiescence and withdrawal from public preoccupations *Encyclopedia of the Age of Imperialism, 1800-1914* Carl C. Hodge,2007-11-30 In 1800 Europeans governed about one third of the world s land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism **German Diplomatic Relations 1871-1945** William Young,2006-09-04 The continuity issue has been a theme in German historiography for half a century Historians have examined the foreign policy of Wilhelmine and Nazi Germany that led to two world wars Dr William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations German Diplomatic Relations 1871 1945 will be of value to individuals interested in the history of Germany Modern Europe and International Relations *King Leopold's Ghostwriter* Andrew Fitzmaurice,2024-12-17 A dramatic intellectual biography of Victorian jurist Travers Twiss who provided the legal justification for the creation of the brutal Congo Free State Eminent jurist Oxford professor advocate to the Archbishop of Canterbury Travers Twiss 1809 1897 was a model establishment figure in Victorian Britain and a close collaborator of Prince Metternich the architect of the Concert of Europe Yet Twiss s life was defined by two events that threatened to undermine the order that he had so stoutly defended a notorious social scandal and the creation of the Congo Free State In *King Leopold's Ghostwriter* Andrew Fitzmaurice tells the incredible story of a man who driven by personal events that transformed him from a reactionary to a reformer rewrote and liberalised international law yet did so in service of the most brutal regime of the colonial era In an elaborate deception Twiss and Phara lde van Lynseele a Belgian prostitute sought to reinvent her as a woman of suitably noble birth to be his wife Their subterfuge collapsed when another

former client publicly denounced van Lynseele Disgraced Twiss resigned his offices and the couple fled to Switzerland But this failure set the stage for a second successful act of re creation Twiss found new employment as the intellectual driving force of King Leopold of Belgium s efforts to have the Congo recognised as a new state under his personal authority Drawing on extensive new archival research King Leopold s Ghostwriter recounts Twiss s story as never before including how his creation of a new legal personhood for the Congo was intimately related to the earlier invention of a new legal personhood for his wife Combining gripping biography and penetrating intellectual history King Leopold s Ghostwriter uncovers a dramatic ambiguous life that has had lasting influence on international law A History of the Modern World: Since 1815 Robert Roswell Palmer, Joel Colton, 1978 *The History of Liberty in Germany* Rudolf Olden, 1946 Origins of Legislative Sovereignty and the Legislative State: Modern origins, developments and perspectives against the background of "Machiavellism". Pt. 1. Pre-modern "Machiavellism. Pt. 2. Modern major "isms" (17th-18th centuries). Pt. 3. Modern major "isms" (19th-20th centuries) A. London Fell, 1999 *Revolutions in Modern German History* Andrew G. Bonnell, 2025-05-29 Andrew G Bonnell s innovative survey examines the history of revolution in modern Germany by focusing on key revolutionary developments in the German states There is coverage of Germany and the French Revolution the 1848 revolutions the Industrial Revolution the 1918 19 revolution the Nazi revolution of 1933 the revolution from above in Eastern Germany 1945 49 and the revolution in East Germany in 1989 90 *Revolutions in Modern German History* sheds new light on the subject by stressing the continuity of conflicts between revolution and counter revolution in German history thereby restoring a sense of the dramatic social conflicts that punctuated the history of the country It also reveals the significance of wider European and transnational developments of revolutionary and counter revolutionary movements and events Bonnell even reconstructs a sense of the participants changing horizon of expectations during these events by looking in depth at the lives of men and women who lived and experienced these tumultuous times Themes in Modern European History 1830-1890 Bruce Waller, 2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent s standing was at its highest and its influence spanned the globe Is the German Constitution a consequence resulting from Germany's history? An essay M. T., 2016-07-18 Essay from the year 2016 in the subject Law Philosophy History and Sociology of Law grade 82% 18 Punkte University of Hull language English abstract According to the first Article of the German Basic Law Grundgesetz human dignity shall be inviolable Die Würde des Menschen ist unantastbar The fact that the protection of human dignity is enshrined at the very beginning of the Basic Law emphasises its value and significance But

has it always been like this or rather since when did human rights protection gain such importance It is both interesting and necessary within comparative legal studies to look at laws and their development in various countries since legal history can support the study of comparative law Especially constitutional issues are relevant as the functioning of a state and human co existence are based on constitutional principles and values An analysis of the historic developments permits a better understanding of law in general as well as a critical analysis of one s own domestic legal system The aim of this essay is to analyse the German constitution and its emphasis on human rights protection in the Federal Constitutional Court Bundesverfassungsgericht and to discuss whether it is a consequence resulting from Germany s history First this essay will present an overview of Germany s history with particular focus on the period of the Weimar Republic and the National Socialism In the next section it will outline the history of origins of the Basic Law as well as its catalogue of fundamental rights followed by an illustration of the competences of the Federal Constitutional Court in contrast to its predecessors Finally a short comparison with regard to the American French and British Constitution will be drawn
