The Presidents In American History:

Presidents and Presidencies in American History Jolyon P. Girard, 2019-10-07 This innovative encyclopedia explores the life and times of America's forty five presidents from the first administration to that of Donald Trump. Forty five men have served as President of the United States since George Washington swore the oath of office in 1789 in New York City. Some have proved exceptional leaders and others have not. Some have faced serious crises both foreign and domestic. Franklin Roosevelt was elected to four terms leading the country through a major economic depression and a world war while one held the office for only a single month. Each however played a key role in the evolution of United States history. Each of their histories therefore remains a critical civics lesson to consider. This four volume encyclopedia provides an expansive analysis of the life and times of each United States president in chronological order from George Washington to Donald Trump. Each chapter includes a timeline, a biographical sketch, a historical overview and an analytical essay concerning the president and his presidency. Each also includes a substantial selection of related primary documents presenting important presidential speeches and correspondence. A suggested reading list for further study of each president rounds out each entry.

An American History Lesson and a Wake up Call for America Jack B. Walters, 2013-07-25 These articles and book reports have been written in the hope that readers could believe as I do that the world including our country is in great danger for multiple of reasons. 1. The spread of adherents to Islam threaten to engulf all persons of different faiths. They are winning through violence but also just by having more babies than every other culture. The leaders of Europe and America refuse to accept how evil this belief system is and how they have only one agenda and that is to have dominion over all nations. 2. Our Constitution has been destroyed by the administration of President Obama and the Supreme Court. He does whatever he wants regardless of the Congress. The Court extended the commerce authority to allow the government to force citizens to purchase a service and allowed the corporations to spend anything they want to affect the outcome of elections. 3. We are drowning in debt but continue to add costly programs making it even worse without making any attempt to reduce the strain. Military adventures continue without end. Government handouts to the so called needy have created a permanent underclass of people being

supported while not required to put forth effort 4 The government refuses to take the steps needed to become energy efficient which could be accomplished easily thereby freeing us from OPEC For those of you who dont remember in the 50s we exported oil **Our Country's Presidents** National Geographic,2025-01-28 Revised and updated to include the winner of the 2024 presidential election this photo filled and fact packed book is a timely must have reference National Geographic presents the 45 individuals who have led the U S in this up to date authoritative and lavishly illustrated family school and library reference Key features include New foreword from Sharon McMahon author of the New York Times best seller The Small and the Mighty and host of the award winning podcast Here s Where It Gets Interesting Information about the 2024 election results Comprehensive profiles of all the former presidents along with timelines and descriptions of crucial events during their terms Thematic spreads covering a variety of topics from the history of voting rights and the impeachment process to White House traditions and the career paths that led to the presidency Full page portraits famous quotes and fascinating facts to help kids get to know each leader **The Presidents in American History** Charles Austin

Presidency of Benjamin Harrison Homer Edward Socolofsky,Allan B. Spetter,1987 Benjamin Harrison was an early proponent of American expansion in the Pacific a key figure in such landmark legislation as the Sherman Anti Trust Act and the McKinley Tariff and one of the Gilded Age s most eloquent speakers Yet he remains one of our most neglected and least understood presidents In this first interpretive study of the Harrison administration the authors illuminate our twenty third president s character and policies and rescue him from the long shadow of his charismatic secretary of state James G Blaine An Ohio native and Indiana lawyer Harrison opened the second century of the American presidency in a rapidly industrializing and expanding nation His inaugural address reflected the nation s optimism The masses of our people are better fed clothed and housed than their fathers were The facilities for popular education have been vastly enlarged and more generally diffused The virtues of courage and patriotism have given proof of their continued presence and increasing power in the hearts and over the lives of our people But the burdens and realities of his office soon imposed themselves upon Harrison The biggest blow came at midterm with the Republicans devastating losses in the 1890 congressional elections In an era of congressional dominance those losses eroded Harrison s position as a legislative advocate at least for domestic issues His impact in foreign affairs was more lasting One of the highlights of this study is its revealing look at Harrison s visionary foreign policy especially toward the Pacific Socolofsky and Spetter convincingly demonstrate that although Harrison s ambition to acquire the Hawaiian Islands was not realized during his presidency his foreign policy was a major step toward American control of Hawaii and American expansion in the Far East History of the Appointing Power of the President Lucy Maynard Salmon,1886 **American History** ,2001 **The American Historical Record** Benson John Lossing,1872 The American Historical Register and Monthly Gazette of the Historic, Military and Patriotic-hereditary
