Peterson, Nancy Schendel, 1996 In *An International Accounting Practice Set* the only currently available simulation for international accounting business and accounting students assume the role of a newly hired employee in the international accounting department of Karissa Jean's an international distributor of men's and women's jeans. In this role the student first participates in the company's training program in international business and accounting working through the first section of the book. After completing the training program the student performs as an international accountant in Karissa Jean's international accounting department moving through the second part of the book. In this fashion readers have a hands on opportunity to apply newly acquired knowledge in a realistic business setting. **The National Public Accountant**, 1970 *Forging Accounting Principles in Five Countries* Stephen A. Zeff, 2016-01-29 This title first published in 1972 examines five countries that have experience with programs designed to improve the quality of financial reporting. Austin, 1999 This text is designed primarily for those introductory financial accounting courses where the focus is on a balance between the understanding and use of accounting information and its preparation. Provided with a backdrop of contemporary management and financial concerns students will see that accounting is a significant part of the world it purports to portray and that it is not an end in itself. On the contrary students are provided the perspective that accounting information is a critical instrument in presenting a corporation's financial picture to important external constituencies. The raising of issues and concerns springing from this orientation facilitates a focus on substance and also frames the student's learning because they have the comfort of a more familiar general business context for thinking about
