Victor J. Callan

Stradbroke Dreamtime:

Bottersnikes and Other Lost Things Juliet O'Connor, 2009 Lazy Bottersnikes in outback rubbish tips Sir Pronoun's dilemma about standing in Miss Noun's place and the story of how Jack built a house a hut or a shack are all to be found in this treasury of Australian children's books This book illuminates the icons of Australian children's literature from Gibbs and Outhwaite to Shaun Tan The Littoral Zone CA. Cranston, Robert Zeller, 2007 In this the first collection of ecocritical essays devoted to Australian contexts and their writers Australian and USA scholars settlers invaders temporary visa holders comment on the transliteration of sea land and interior through the works of major and minor authors and through their own experience with the bioregion The littoral zone is the starting point in this fresh approach to reading literature and is organised around the natural environment rainforest desert mountains coast islands Antarctica There's the beach where sexual and spiritual crises occur the Wheatbelt area the most visible clearance line on the planet desert literature camel trekking and the transformation of a salt flat into an inland island New Age literature that appropriates Aboriginals and their cultures as the healing poultice for an ailing and dispirited West a re-examination of pastoralism and the feet of millions of sheep that have done unspeakable damage to soils an inquiry into whether Judith Wright's work can persuade us to rejoice in the world an investigation of the Limestone Plains home of the bush capital and the bogong moth of bananas cane toads and the Great Barrier Reef in tropic Queensland of national parks and guesthouses where the mountains meet the sea a discursive approach to temperate islands that covers sealing Soldier Settlement and sea country pastoral and finally to Antarctica where an initial utopian approach gives way to an emphasis on its stark timeless icescape as a minimalist backdrop for human dramas The author terrain is no less grand in its scope poets playwrights novelists and non-fiction writers are discussed across the broad range of contexts that constitutes the littoral zone known as Australia **The Power of Stars** Bryan E. Penprase, 2010-10-17 What are some of the connections that bind us to the stars How have these connections been established And how have people all around the world and throughout time reacted to the night sky the sun and moon in their poetry mythology rituals and temples This book explores the influence of the sky on both ancient and modern civilization by providing a clear overview of the many ways in which humans have used the stars as an ordering principle in their cultures and which today still inspire us intellectually emotionally and spiritually The book explores constellation lore from around the world celestial alignments of monuments and temples both from ancient and modern civilizations and the role the sky has played in the cultures of the Greek Egyptian Babylonian Native American Chinese Mayan Aztec and Inca Models of the universe from each of these cultures are described clearly and each culture's explanation of the stars planets and other celestial objects are described The roots of astronomy and astrology are presented with original imagery and reproductions of ancient manuscripts that portray the structure of the physical universe as conceived by a diverse array of human cultures over the centuries Our own scientific Big Bang cosmology and the origin of

stars and elements are discussed in a philosophical context to explore how we as modern people learn about the Universe and incorporate the findings of science into our world views A concluding chapter provides a summary of modern science s effort to unlock the celestial secrets from the sky and from past civilizations and what these answers mean for us today
