**Unserious Ecocriticism** Jessica Landau, Maria Lux, 2026-01-20 Climate change, biodiversity loss, and environmental injustice are complex, messy, and gravely important issues. In addressing these concerns, traditional ecocriticism understandably has taken itself very seriously. Unserious Ecocriticism, by contrast, highlights alternative responses to the challenges of environmental collapse and catastrophe. By theorizing an unserious ecocriticism, the essays, artworks, and other contributions in this volume validate and empower alternatives to mainstream environmentalism, scholarship, and artmaking. The essays, artworks, and non-traditional scholarly formats of this edited collection demonstrate that the creative tools available to artists and those who study them are particularly well positioned to inventively disrupt normative modes of ecocritical presentation and environmentalist thought. Rather than approach
