Strange Harvest:

Strange Harvest Sid MacKinnon, 2016-02-20 In a small community hidden back in the woods swamp and marsh land is three hundred acre farm John and Beth Averley are the proud owners of this quiet and laid back retreat they call home in Ontario Canada You see life in the city for John and Beth was downright depressing overrated and as far as they were concerned no place to bring up a family They were looking for a tranquil place to build a solid foundation that they could call home and would not crumble like their lives were about to do if they were to stay in the city any longer Finding the perfect place was relentless day after day until one day right in front of them their dream had come true time and patience had finely paid off John would always say Beauty is in the eyes of the beholder Theres a problem with that saying and it would alter the Averleys lives forever All things are truly beautiful in their way but sometimes beauty can deceive the beholder Therefore whatever you sow isnt always what you will reap

[The Ethics of Everyday Life](#) Michael Banner, 2014-10-23 The moments in

Christ s human life noted in the creeds his conception birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested In other words these are the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with IVF abortion euthanasia and the use of bodies or body parts post mortem plainly indicate Thus the following questions arise how do the instances in Christ s life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life How does the Christian imagination of human life which dwells on and draws from the life of Christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human Michael Banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology Drawing from social anthropology and Christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the UK s Human Tissue Authority Banner aims to develop the outlines of an everyday ethics stretching from before the cradle to after the grave

Paths to the Stars

Edward Willett, 2020-06-30 Shortlisted for two 2019 Saskatchewan Book Awards From Edward Willett Aurora Award winning author of Marseguro The Cityborn and Worldshaper DAW Books among many others comes twenty two tales of fantasy science fiction and horror drawn from a long career of telling fantastic tales A young musician dreams of playing his songs among the stars A Broadway performer on the lam is forced to direct aliens in The Sound of Music Strange vegetables with dangerous properties crop up in small town Saskatchewan A man with a dark secret gets his comeuppance on a windy night on the prairie An elderly caretaker on the Moon preserves the memory of the millions who died on Earth s darkest day A woman and a bat like alien must overcome their own prejudices to prevent an interstellar war From the far

future and the farthest reaches of space to the Canadian prairie from our world to worlds that have never existed to worlds that might some day rich realms of imagination and the fascinating characters and creatures that populate them await within these stories some previously published some seeing print for the first time Time to go exploring Praise for Paths to the Stars I've enjoyed every novel of Willett's that I've consumed and hoped that his latest work would reach the same high bar It didn't hurdle right over that bar and left it hanging Willett's powerful writing style shines in this story collection This book hits all the checkmarks for what I feel are the hallmarks of a science fiction work imaginative fantastical and mind bending If this work was a meal instead of a book it would deserve a Michelin star Toby A Welch SaskBooks Reviews This fascinating collection of science fiction short stories spans the writing career of this very prolific writer The author has a powerful imagination and transports readers to places and situations never before imagined from music and theatre on far away planets to unusual crops causing concern in the prairies to times far in the future with all kinds of fascinating creatures The realm of possibility is endless in this author's vivid imagination Saskatchewan Book Awards City of Regina Book Award jurors Bruce Hunter Betty Jane Hegerat and Emily Jane Hills Orford Paths to the Stars is a well written collection of science fiction They are rich with imagination and stimulate the reader's interest in space and other worlds beyond our own small planet Saskatchewan Book Award Muslims for Peace and Justice Fiction Award jurors Rona Altrows Dora Dueck and Zoe S Roy I was happily surprised by Paths to the Stars I don't normally read short stories and was very wary of trying this book However I'm glad I gave it a chance I loved how pretty much every story in Paths to the Stars was intriguing quick and rarely boring I loved how the plot moved so elegantly fast and how the characters were so different from those in a regular story The author's writing is absolutely beautiful The words just flowed off the page It was an absolute delight to read Overall Paths to the Stars is an elegant beautiful collection of short stories I recommend it for anyone ages 12 Jesus Freak student reviewer LitPick Many students get their start as serious readers of science fiction and fantasy SFF in junior high or early senior high Often they read the classics in the genre without ever realizing that SFF authors are alive and producing right here in Canada Paths to the Stars offers readers a sly and good humoured introduction to the work of Saskatchewan based award winning writer Edward Willett With their compression and light literary touches these stories may nudge readers into reading more short fiction in SFF and what a bounty is available today They may also be a sneaky way to encourage less avid readers to explore the structure and features of literary short stories in a more palatable and accessible form Paths to the Stars should have broad appeal and would make an excellent addition to a classroom library and a fine recommendation from a trusted reader I really enjoyed this book Leslie Vermeer Resource Links I enjoyed this collection and if I had to give a one word description I'd say reminiscent Reminiscent of what Well back when I was reading my first SF I enjoyed the novels like Heinlein Asimov and so on but my first love was a good short story collection each story being written by a different author almost all seminal stories of science fiction and fantasy and much that came after was a pale shadow I say that Ed Willett's

little collection of 22 stories is not an imitation nor are these stories old fashioned well some are a bit old fashioned in style but that's homage I think to the stories Ed liked while he was learning to be a writer But they remind me not the least in variety of those great collections of long ago Steve Fahnestalk Amazing Stories From exploding fruits and vegetables to a shrine on the moon dedicated to the memory of a devastated Earth these stories will not disappoint If you're a fantasy and science fiction fan like I am you're sure to enjoy this rollercoaster of stories every bit as much as I did I can sum my thoughts up in two words READ THEM Lorne McMillan Author of Isaac's Blood These stories take completely fantastical concepts and pack them into a neatly accessible format which makes them enormously entertaining Willett's sense of humor in many of the stories is perfectly offset with his use of mystery and drama in others There is a short story in this collection for every reader I was never a sci fi fan before but I certainly am now Also musical theatre worshipping aliens A reviewer on Amazon ca

Dead Labor James Tyner, 2019-03-12 A groundbreaking consideration of death from capitalism from the seventeenth to the twenty first century From a 2013 Texas fertilizer plant explosion that killed fifteen people and injured 252 to a 2017 chemical disaster in the wake of Hurricane Harvey we are confronted all too often with industrial accidents that reflect the underlying attitude of corporations toward the lives of laborers and others who live and work in their companies shadows Dead Labor takes seriously the myriad ways in which bodies are commodified and profits derived from premature death In doing so it provides a unique perspective on our understanding how life and death drive the twenty first century global economy James Tyner tracks a history from the 1600s through which premature death and mortality became something calculable predictable manageable and even profitable Drawing on a range of examples including the criminalization of migrant labor medical tourism life insurance and health care he explores how today we can no longer presume that all bodies undergo the same processes of life death fertility and mortality He goes on to develop the concept of shared mortality among vulnerable populations and examines forms of capital exploitation that have emerged around death and the reproduction of labor Positioned at the intersection of two fields the political economy of labor and the philosophy of mortality Dead Labor builds on Marx's notion that death and truncated life is a constant factor in the processes of labor Considering premature death also as a biopolitical and bioeconomic concept Tyner shows how racialized and gendered bodies are exposed to it in unbalanced ways within capitalism and how bodies are then commodified made surplus and redundant and even disassembled in order to accumulate capital
