Strange Fits Of Passion:

Strange Fits of Passion Adela Pinch, 1996 This book contends that when late eighteenth and early nineteenth century writers sought to explain the origins of emotions they often discovered that their feelings may not really have been their own It explores the paradoxes of representing feelings in philosophy aesthetic theory gender ideology literature and popular sentimentality and it argues that this period's obsession with sentimental wayward emotion was inseparable from the dilemmas resulting from attempts to locate the origins of feelings in experience The book shows how these epistemological dilemmas became gendered by studying a series of extravagantly affective scenes Hume's extraordinary confession of his own melancholy in the Treatise of Human Nature Charlotte Smith's insistence that she really feels the gloomy feelings portrayed in her Elegiac Sonnets Wordsworth's witnessing of a woman poet reading and weeping tearful exchanges between fathers and daughters in the gothic novel the climactic debate over the strengths of men's and women's feelings in Jane Austen's Persuasion and the poetic and public mourning of a dead princess in 1817

Strange Fits of Passion I Too Have Known Julian Scutts, 2019-07-31 The picture on the front cover may need a word of explanation Why should the author appear holding a copy of one of his books I hope this is not an indication of vanity in my case I plead that the issue at stake here is reflexivity After a while authors may find themselves reading long forgotten passages they have written and thus become the critics of their own works Inevitably they will fault with lapses of style and inept or colourless forms of expression On the other hand they may find the occasional felicitous turn of phrase and even purple passages among long screeds of otherwise mediocre prose Why did these passages go under and what can be done to bring them to the surface to the possible gratification and enrichment of the reading public
