The UFO Show Illinois State University. University Galleries, 2000 To say that UFOs have captured the popular imagination of contemporary America would be an understatement while appearances of blinking ellipsoids whirling orbs and have been reported throughout history nowhere has the idea of contact with extraterrestrials taken hold so much as in the postwar United States The UFO Show presents these phenomena in an unexpected way as inspiration and subject matter for contemporary visual art Creating two and three dimensional work relating directly or symbolically to discs saucers and other images common to the subject of UFOs 12 artists including Mariko Mori Ionel Talpazan Keith Haring Panamarenko Oliver Wasow Claire Jervert and Paul Laffoley confront each in their own way a historically ingrained and commercially reinforced locus of millennial obsession Also included here are several provocative essays on the subject **Alone in the Universe?** David Wilkinson, 1997 What lies behind our curiosity about other life in the cosmos Analyzing popular interest in aliens from Star Wars to The X Files David Wilkinson carefully weighs the scientific arguments for space travel and extraterrestrial life And he explores the implications for Christian faith *The Alien Iq Test* Clifford A. racial paranoia the traumatized black body as the ultimate signifier of difference alienness and otherness the use of class and economic issues to subsume race as an issue the racially subversive pleasures and allegories encoded in some mainstream SF films and the ways in which independent and extra filmic productions are subverting the SF genre of Hollywood filmmaking The first book length study of African American representation in science fiction film Black Space demonstrates that SF cinema has become an important field of racial analysis a site where definitions of race can be contested and post civil rights race relations re imagined    **Mysteries of the World** Rainer Köthe,1998 Examines evidence of mysterious phenomena such as extraterrestrial visitors to Earth and the existence of Atlantis and investigates whether they can be scientifically verified    **The Science Of Aliens** Clifford A.
