The Flood Of The Millennium The Real Story The Survivors:

Now Hear This John Naylor,2021-11-30 This book explains the nature of sound both as a physical phenomenon and as a sensation how it travels through air and water and how the hearing system evolved to convert these vibrations into sensations Drawing on physics biology neuroscience philosophy literature history anecdote and personal experience Now Hear This is a wide ranging exploration of the nature of sound and hearing that opens up a fascinating world of sounds from the mundane to the unusual and seeks above all to persuade the reader of the wisdom of John Cage s advice that Wherever we are what we hear is mostly noise When we ignore it it disturbs us When we listen to it we find it fascinating

From

Eden to Exile Eric H. Cline,2012-12-04 Eric H Cline uses the tools of his trade to examine some of the most puzzling mysteries from the Hebrew Bible and in the process to narrate the history of ancient Israel Combining the academic rigor that has won the respect of his peers with an accessible style that has made him a favorite with readers and students alike he lays out each mystery evaluates all available evidence from established fact to arguable assumption to far fetched leap of faith and proposes an explanation that reconciles Scripture science and history Numerous amateur archaeologists have sought some trace of Noah s Ark to meet only with failure But though no serious scholar would undertake such a literal search many agree that the Flood was no myth but the cultural memory of a real catastrophic inundation retold and reshaped over countless generations Likewise some experts suggest that Joshua s storied victory at Jericho is the distant echo of an earthquake instead of Israel s sacred trumpets a fascinating geologically plausible theory that remains unproven despite the best efforts of scientific research Cline places these and other Biblical stories in solid archaeological and historical context debunks more than a few lunatic fringe fantasies and reserves judgment on ideas that cannot yet be confirmed or denied Along the way our most informed understanding of ancient Israel comes alive with dramatic but accurate detail in this groundbreaking engrossing entertaining book by one of the rising stars in the field

The Human Difference Michael

Robbins,2023-10-02 From a multidisciplinary perspective grounded in psychoanalysis this book explores the manifestations of mind that distinguish humans from other species culture civilization and destructiveness Psychoanalysis was created by Freud in an effort to understand neurosis and psychosis the names he gave to individual human destructiveness His understanding was limited and incorrect because the science of evolution and the disciplines of sociology and cultural anthropology were in their infancy when he formulated his ideas He did not comprehend that destructiveness is qualitatively different in humans than in other species and he ignored the problem of how biological instincts become mental processes These limitations left psychoanalysis with one of its most perplexing unsolved problems the mysterious leap from mind to body This book explains how neoteny the prolonged period of postnatal immaturity that distinguishes humans from other animals requires and enables complex learning from caregivers It is the knowledge acquired from this learning and its intergenerational transmission that links the biological theory of evolution with the psychosocial theory of psychoanalysis and

explains how the human species is unique This book will be of interest to those who want to learn about how integrating the findings of evolutionary science primatology sociology and cultural anthropology with the theory of psychoanalysis expands our understanding of what makes humans unique and its implications for the future of our species and how it empowers us to influence the destiny of humankind *Austronesian Myth or History?* J.G. Cheock, 2021-01-01 Listen to the story told by our ancestors in the myths and legends treasured and preserved through the ages A narrative passed on through words and graphic images that come to life as we shine a light on our past in order to understand the present and prepare for our future
