Clark,2021-05-11 Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque Assuredly he was correct The subjects and methods of our comic literature and much of our other literature are regularly disturbing and often repulsive no laughing matter In this ambitious study John R Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor In Part I he explores the satiric strategies of authors of the grotesque strategies that undercut conventional usage and form the de basement of heroes the denigration of language and style the disruption of normative narrative technique and even the debunking of authors themselves Part II surveys major recurrent themes of grotesquerie tedium scatology cannibalism dystopia and Armageddon or the end of the world Clearly the literature of the grotesque is obtrusive and ugly its effect morbid and disquieting and deliberately meant to be so Grotesque literature may be unpleasant but it is patently insightful Indeed as Clark shows all of the strategies and topics employed by this literature stem from age old and spirited traditions Critics have complained about this grim satiric literature asserting that it is dank cheerless unsavory and negative But such an interpretation is far too simplistic On the contrary as Clark demonstrates such grotesque

Spanos,1993 In Heidegger and Criticism Retrieving the Cultural Politics of Destruction William Spanos examines the controversy both in Europe and the United States surrounding Heidegger and recent disclosures about his Nazi past Not intended as a defense or apology for Heidegger s thought Spanos instead affirms the importance of Heidegger s antihumanist interrogation of the modern age its globalization of technology and its neo imperialist politics The attack on Heidegger s antihumanistic discourse by liberal humanists who have imported the European debate into the United States aligns ideologically with the ongoing policing operations of William Bennett Allan Bloom E D Hirsch Roger Kimball Dinesh D Souza and others in the spheres of higher education and cultural production Throughout his arguments Spanos focuses not so much on Heidegger the historical subject as on the transformative cultural and political discourses and practices implicit in and enabled by Heidegger s interrogations of Being and Time that have led to the contemporary emergence of the multiplicity of resistant Others colonized by hegemonic discursive formations All the while he reminds us that Heidegger s philosophic interrogations eventually generate a diverse body of transgressive writing and an oppositional intellectual climate in the West Spanos is author of Repetitions the Postmodern Occasion in Literature and Culture 1987 and The End of Education Toward Posthumanism Minnesota 1992 and the editor of Martin Heidegger and the Question in Literature 1980 and the co editor of The Question of Textuality Strategies of Reading in Contemporary American Criticism 1982 This book is intended for those in the fields of philosophy literary theory political theory The Schizoid Nature of the Implied Author in 20th Century American Ethnic Novels Marilyn Nelson,1979 **The Human Body in Contemporary Literatures in English** Sabine Coelsch-Foisner,Marta Fernández Morales,2009 The human body is a recurrent theme in contemporary literatures in English The aim of this collection of essays is to explore its multiple representations and functions within a wide range of texts drawn together from various Anglophone cultures For thematic coherence this volume is divided into four
