Handbook of Christianity in China Nicolas Standaert, R. G. Tiedemann, 2009-12-01 The second volume on Christianity in China covers the period from 1800 to the present day dealing with the complexities of both Catholic and Protestant aspects **Harvard East Asian Monographs**, 1981 **The Chinese Political Novel** Catherine Vance Yeh, 2020-05-11 The political novel which enjoyed a steep yet short rise to international renown between the 1830s and the 1910s is primarily concerned with the nation's political future. It offers a characterization of the present, a blueprint of the future, and the image of the heroes needed to get there. With the standing it gained during its meteoric rise, the political novel helped elevate the novel altogether to become the leading literary genre of the twentieth century worldwide. Focusing on its adaptation in the Chinese context, Catherine Vance Yeh traces the genre from Disraeli's England through Europe and the United States to East Asia. Her study goes beyond comparative approaches and nation-state and language-centered histories of literature to examine the intrinsic connections among literary works. Through detailed studies, especially of the Chinese exemplars, Yeh explores the tensions characteristic of transcultural processes, the dynamics through which a particular and seemingly local literary genre goes global, the ways in which such a globalized literary genre maintains its core features while assuming local identity and interacting with local audiences and political authorities, and the relationship between the politics of form and the role of politics in literary innovation **Brokers of Empire** Jun Uchida, 2020-03-17 Between 1876 and 1945 thousands of Japanese civilians, merchants, traders, prostitutes, journalists, teachers, and adventurers left their homeland for a new life on the Korean peninsula. Although most migrants were guided primarily by personal profit and only secondarily by national interest, their mundane lives and the state's ambitions were inextricably entwined in the rise of imperial Japan. Despite having formed one of the largest colonial communities in the twentieth century, these settlers and their empire-building activities have all but vanished from the public memory of Japan's presence in Korea. Drawing on previously unused materials in multi-language archives, Jun Uchida looks behind the official organs of state and military control to focus on the obscured history of these settlers, especially the first generation of pioneers between the 1910s and 1930s who actively mediated the colonial management of Korea as its grassroots movers and shakers. By uncovering the downplayed but dynamic role played by settler leaders who operated among multiple parties between the settler community and the Government-General between Japanese colonizer and Korean colonized, between colony and metropole, this study examines how these brokers of empire advanced

their commercial and political interests while contributing to the expansionist project of imperial Japan Buddhism, Unitarianism, and the Meiji Competition for Universality Michel Mohr, 2020-05-11 In the late 1800s as Japanese leaders mulled over the usefulness of religion in modernizing their country they chose to invite Unitarian missionaries to Japan This book spotlights one facet of debates sparked by the subsequent encounter between Unitarianism and Buddhism an intersection that has been largely neglected in the scholarly literature Focusing on the cascade of events triggered by the missionary presence of the American Unitarian Association on Japanese soil between 1887 and 1922 Michel Mohr's study sheds new light on this formative time in Japanese religious and intellectual history Drawing on the wealth of information contained in correspondence sent and received by Unitarian missionaries in Japan as well as periodicals archival materials and Japanese sources Mohr shows how this missionary presence elicited unprecedented debates on universality and how the ambiguous idea of universal truth was utilized by missionaries to promote their own cultural and ethnocentric agendas At the turn of the twentieth century this notion was appropriated and reformulated by Japanese intellectuals and religious leaders often to suit new political and nationalistic ambitions **The Princess Nun** Gina Cogan, 2020-05-11 The Princess Nun tells the story of Bunchi 1619-1697 daughter of Emperor Go Mizunoo and founder of Enshō-ji Bunchi advocated strict adherence to monastic precepts while devoting herself to the posthumous welfare of her family As the first full length biographical study of a premodern Japanese nun this book incorporates issues of gender and social status into its discussion of Bunchi's ascetic practice and religious reforms to rewrite the history of Buddhist reform and Tokugawa religion Gina Cogan's approach moves beyond the dichotomy of oppression and liberation that dogs the study of non-Western and premodern women to show how Bunchi's aristocratic status enabled her to carry out reforms despite her gender while simultaneously acknowledging how that same status contributed to their conservative nature Cogan's analysis of how Bunchi used her prestigious position to further her goals places the book in conversation with other works on powerful religious women like Hildegard of Bingen and Teresa of Avila Through its illumination of the relationship between the court and the shogunate and its analysis of the practice of courtly Buddhism from a female perspective this study brings historical depth and fresh theoretical insight into the role of gender and class in early Edo Buddhism **Rise of a Japanese Chinatown** Eric C. Han, 2020-05-11 Rise of a Japanese Chinatown is the first English language monograph on the history of a Chinese immigrant community in Japan It focuses on the transformations of that population in the Japanese port city of Yokohama from the Sino-Japanese War of 1894-1895 to the normalization of Sino-Japanese ties in 1972 and beyond Eric C. Han narrates the paradoxical story of how during periods of war and peace Chinese immigrants found an enduring place within a monoethnic state This study makes a significant contribution to scholarship on the construction of Chinese and Japanese identities and on Chinese migration and settlement Using local newspapers Chinese and Japanese government records memoirs and conversations with Yokohama residents it retells the familiar story of Chinese nation building in the context of Sino-Japanese relations But it builds on

existing works by directing attention as well to non elite Yokohama Chinese those who sheltered revolutionary activists and served as an audience for their nationalist messages Han also highlights contradictions between national and local identifications of these Chinese who self identified as Yokohama ites hamakko without claiming Japaneseness or denying their Chineseness Their historical role in Yokohama s richly diverse cosmopolitan past can offer insight into a future more inclusive Japan

Sound Rising from the Paper Paize Keulemans,2020-05-11 Chinese martial arts novels from the late nineteenth century are filled with a host of suggestive sounds Characters cuss and curse in colorful dialect accents vendor calls ring out from bustling marketplaces and martial arts action scenes come to life with the loud clash of swords and the sounds of bodies colliding What is the purpose of these sounds and what is their history In Sound Rising from the Paper Paize Keulemans answers these questions by critically reexamining the relationship between martial arts novels published in the final decades of the nineteenth century and earlier storyteller manuscripts He finds that by incorporating imitating and sometimes inventing storyteller sounds these novels turned the text from a silent object into a lively simulacrum of festival atmosphere thereby transforming the solitary act of reading into the communal sharing of an oral performance By focusing on the role sound played in late nineteenth century martial arts fiction Keulemans offers alternatives to the visual models that have dominated our approach to the study of print culture the commercialization of textual production and the construction of the modern reading subject

Illusory Abiding Natasha Heller,2020-05-11 A groundbreaking monograph on Yuan dynasty Buddhism Illusory Abiding offers a cultural history of Buddhism through a case study of the eminent Chan master Zhongfeng Mingben Natasha Heller demonstrates that Mingben and other monks of his stature developed a range of cultural competencies through which they navigated social and intellectual relationships They mastered repertoires internal to their tradition for example guidelines for monastic life as well as those that allowed them to interact with broader elite audiences such as the ability to compose verses on plum blossoms These cultural exchanges took place within local religious and social networks and at the same time they comprised some of the very forces that formed these networks in the first place This monograph contributes to a more robust account of Chinese Buddhism in late imperial China and demonstrates the importance of situating monks as actors within broader sociocultural fields of practice and exchange

The Conversion of Missionaries Lian, Xi,1997

Like many of her fellow missionaries to China Pearl Buck found that she was not immune to the influence of her adopted

home Some missionaries even found themselves converted by the Far East In this book Lian Xi tells the story of Buck and two other American missionaries to China in the early twentieth century who gradually came to question and eventually reject the evangelical basis of Protestant missions as they developed an appreciation for Chinese religions and culture Lian Xi uses these stories as windows to understanding the development of a broad theological and cultural liberalism within American Protestant missions which he examines in the second half of the book Library of Congress Catalogs Library of Congress, 1976
