A Study of the Economy of Nature and the Ecology of Man** Marston BATES,1960      A *Forest on the Sea* Karl Appuhn,2009 The idea of a Venetian forestry service might strike one as the beginning of a joke The statement that it began in the fourteenth century would surprise most people Venice is built on a lagoon with no timber resources This book reveals the story of Venice s attempt to establish protected forests in order to have a constant supply of wood Beyond the need for wood for heating and cooking tall beams of oak and beech were needed for ship building and the shoring up of breakwaters that kept the sea from flooding the city The author follows the practice of forest conservation and management from its inception in the 1300s to the end of the eighteenth century He details the administrative and legal debates as well as problems with the implementation of policies This study is a corrective to histories that assume a lack of interest in forest conservation in Europe at this time The experience of the Venetians also serves as an example for timber use and conservation today      **Annual report** ,1893      **The Fortnightly** ,1887      Ecoforestry Duncan M.
