The European Union in the Twenty-First Century Altuğ GÜNAR,Didem SAYGIN,2023-04-20 The European Union in the Twenty First Century Major Political Economic and Security Policy Trends unpacks some of the most prominent issues faced by the EU over the last two decades and considers how they may shape its future as well as the future of international politics *The Future of Europe* Alberto Alesina,Francesco Giavazzi,2008-09-26 A provocative argument that unless Europe takes serious action soon its economic and political decline is unavoidable and a clear statement of the steps Europe must take before it s too late Unless Europe takes action soon its further economic and political decline is almost inevitable economists Alberto Alesina and Francesco Giavazzi write in this provocative book Without comprehensive reform continental Western Europe s overprotected overregulated economies will continue to slow and its political influence will become negligible This doesn t mean that Italy Germany France and other now prosperous countries will become poor their standard of living will remain comfortable But they will become largely irrelevant on the world scene In *The Future of Europe* Alesina and Giavazzi themselves Europeans outline the steps that Europe must take to prevent its economic and political eclipse Europe the authors say has much to learn from the market liberalism of America Europeans work less and vacation more than Americans they value job stability and security above all Americans Alesina and Giavazzi argue work harder and longer and are more willing to endure the ups and downs of a market economy Europeans prize their welfare states Americans abhor government spending America is a melting pot European countries witness the November 2005 unrest in France have trouble absorbing their immigrant populations If Europe is to arrest its decline Alesina and Giavazzi warn it needs to adopt something closer to the American free market model for dealing with these issues Alesina and Giavazzi s prescriptions for how Europe should handle worker productivity labor market regulation globalization support for higher education and technology research fiscal policy and its multiethnic societies are sure to stir controversy as will their eye opening view of the European Union and the euro But their wake up call will ring loud and clear for anyone concerned about the future of Europe and the global economy [White Paper on the Future of Europe](#) European Commission,Jean Claude Juncker,2017

Protecting Democracy in Europe Tom Theuns,2025-01-01 Why has the European Union failed to combat rising

authoritarianism within its own ranks And how can it defend democratic governance inside member countries The Council's Follow-up to the Conference on the Future of Europe ,2023 The Conference on the Future of Europe was launched in March 2021 as a joint undertaking of the European Parliament the Council of the European Union and the European Commission to listen to EU citizens and let them have their say on the future of Europe through a citizen led series of debates and deliberations The focus is now on the follow up The final report of the conference was presented on 9 May 2022 and includes 49 proposals and 326 specific measures The President of the Council together with the President of the European Parliament and the President of the Commission committed to swiftly examine how to follow up effectively on the proposals in the final report **Euroclash** Neil Fligstein,2009-10-08 The European Union s market integration project has dramatically altered economic activity around Europe This book presents extensive evidence on how trade has increased jobs have been created and European business has been reorganized The changes in the economy have been accompanied by dramatic changes in how people from different societies interact This book argues provocatively that these changes have produced a truly transnational European society The book explores the nature of that society and its relationship to the creation of a European identity popular culture and politics Much of the current political conflict around Europe can be attributed to who is and who is not involved in European society Business owners managers professionals white collar workers the educated and the young have all benefited from European economic integration specifically by interacting more and more with their counterparts in other societies They tend to think of themselves as Europeans Older poorer less educated and blue collar citizens have benefited less They view the EU as intrusive on national sovereignty or they fear its pro business orientation will overwhelm the national welfare states They have maintained national identities There is a third group of mainly middle class citizens who see the EU in mostly positive terms and sometimes but not always think of themselves as Europeans It is this swing group that is most critical for the future of the European project If they favor more European cooperation politicians will oblige But if they prefer that policies remain wedded to the nation European cooperation will stall *The Future of Democracy in Europe* ,2009 This paper is a short version of a Green Paper that the author wrote for the Council of Europe with Alexandre Trechsel It includes a theoretical introduction which lays out the contemporary dilemmas of Western Liberal Representative Democracy and the trends that are affecting it While the focus is on the national level much of the analysis applies even more strongly to the EU level Among the 29 recommendations for reform in the Green Paper the author inserts a detailed treatment of those specific reforms that he believes should be of greatest concern to the European Union He pays special attention to the matter of EU referendums and initiatives
