This is reflected in each of the 12 chapters by internationally acclaimed scholars witnessing the range of fields Merton has contributed to as well as the personal impact he has had on sociologists. This approach is in itself a tribute to Merton an analysis of knowledge production through a contextualized review of an author's life work a quintessentially Mertonian enterprise. *The Social Monster* Johann Joseph Most, 1890. **The future of sociology** Peter Wagner, Servizio stampa e fotoriproduzione dell'Università degli studi di Trento, 2009. *-Studies in Social Life* George Claude Lorimer, 1892. *Principles of political economy*, tr. by E.P. Jacobsen Paul Henri Charles Gide, 1891. *An Introduction to Social Work Practice in Canada* Shankar A. Yelaja, 1985. *Theoretical Sociology* Seth Abrutyn, Kevin McCaffree, 2021-03-30. Since Durkheim's influential work a century ago sociological theory has been among the most integrative and useful tools for social scientists across many disciplines. Sociological theory has nevertheless due to its usefulness expanded so very broadly that some wonder whether the concept of general theory or even the attempt to link middle range theories is still of any use. This book a collection of top theorists reflecting on the present and future of the craft addresses this most important question. Taking their lead from Jonathan Turner's important recent work and drawing on their own broad experience Seth Abrutyn and Kevin McCaffree have organized the chapters in this book from the general integrative and review focused bookend chapters to more specific chapters on innovations in theory construction at the micro meso and macro levels. Moreover the book's microsociological content on interpersonal violence, solidarity, identity and emotion coheres with chapters in mesosociological dynamics on class, education and networks which in turn integrate with the chapters on inequality, justice, morality and cultural evolution found in the section on macrosociology. The distinguished contributors share a distinct commitment to the development, innovation and relevance of general sociological theory. This volume is an invaluable sourcebook for advanced students and social science faculty interested in understanding how sociological theory's past and present are informing its future. **Catholic Socialism** Francesco Saverio Nitti, 1895. **Current Sociology**, 1952 Vols 1-4 contain v 1-4 of International bibliography of sociology.
