

## *GAIA: Dialogues between the book arts, natural sciences & plant humanities*

The term Gaia has multiple meanings, primarily rooted in ancient Greek mythology and modern scientific theory. In Greek mythology, Gaia is the personification of the Earth, a primordial goddess and the mother of all creation. In a scientific context, the Gaia hypothesis, proposed by James Lovelock in 1972, suggests that the Earth is a self-regulating system where living and non-living components interact to maintain conditions suitable for life.

*GAIA: Dialogues between the book arts, natural sciences & plant humanities* realises the long-held wish of Rosalind Cleaver – the late Senior Special Collections Librarian of the JGCBA – to curate an exhibition of artists' books from the collection that reflect both an artist's reading of the world and our place within it, as well as a call to stewardship and to tread lightly on the earth. To Ros's initial selection of books, the curators have added others from the collection, material displays from the C.E. Moss Herbarium, and Life Sciences Museum, University of the Witwatersrand, and selected artworks completed by Ros while exploring South Africa's grand biodiversity.

## **The Gaia Dialogues:**

The Gaia Dialogues Murry Hope,1995      Regenerative Dialogues for Sustainable Futures Fabio Scarano,2024-03-13

This book is about sustainability in its broadest sense It argues that the ongoing science policy dialogue on sustainable development as framed by the United Nations Sustainable Development Goals is insufficient to drive the planet to desired sustainable futures This conversation followed by transformative action must be inclusive of other forms of interpretation of reality arts spirituality and ancestral knowledge and non modern cosmovisions This is more a book about dialogues than about the common dualism problem solution and such dialogues are approached as an essential trigger of regeneration The book takes the reader from a historical perspective of the human nature relationship through to a discussion on sustainable futures as utopias The optimism conveyed by the book is justified by a plethora of global examples of such regenerative dialogues      **Empowering Dialogues Within** Kate Cohen-Posey,2008-06-02 Immersed with wisdom Empowering Dialogues Within is a unique client workbook filled with narratives case vignettes and exercises providing mental health professionals with a broad based toolkit to help clients become more self aware It is filled with instructive case examples and practical advice for building clients confidence wisdom and sense of wellness and a foundation for lifelong strength and growth
