**The Game of Bowling on the Green, Or Lawn Bowls** James Weir Greig,1910 *Lawn Bowls* JC. REARDON,2025-03-04 Lawn bowls is a precision sport played on a rectangular level grass or synthetic surface called a bowling green The objective of the game is to roll biased balls called bowls so they stop as close as possible to a smaller white or yellow ball known as the jack Basic Rules of Lawn Bowls Playing Area The game is played on a green divided into rinks lanes Each rink accommodates two opposing teams Equipment Bowls Spherical with a bias weight imbalance that causes them to curve as they slow down Jack A small white yellow target ball Mat The starting point from which players deliver their bowls Game Objective Players or teams take turns rolling their bowls toward the jack The goal is to have more of your bowls closer to the jack than your opponent Scoring After all bowls are played the player team with the closest bowls to the jack scores points called shots The number of points equals the number of their bowls closer to the jack than the opponent s nearest bowl Game Formats Singles one on one first to a set number of points Pairs two player teams Triples three player teams Fours Rinks four player teams Matches can be played over a set number of ends rounds or to a predetermined score Delivery Bias The bowls are biased meaning they curve due to weight distribution Players must adjust their delivery line to account for the bias and green conditions A forehand shot curves one way and a backhand shot curves the other Common Terms End A round of play where all bowls are delivered and scores are calculated Lead The first player in a team to bowl Skip The captain of a team usually playing last Draw Shot A bowl delivered to stop near the jack Drive Shot

A fast shot to knock away bowls or the jack Ditch The edge of the green where bowls may go out of play Strategy Tactics Players can block opponents knock bowls into better positions or move the jack strategically Reading the green grass speed and surface conditions is crucial Weight control how fast hard the bowl is delivered is key to accuracy Origins Popularity Dates back to at least the 13th century in England Popular worldwide especially in the UK Australia New Zealand Canada and South Africa Played in the Commonwealth Games and numerous national club competitions *The Game of Bowling on the Green Or Lawn Bowls* James Weir 1868- [From Old Catal Greig,2018-10-31 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Bowls* English Bowling Association,2009-08-04
