## INTRO TO GREEK MYTHOLOGY

29  
SLIDES

### Introduction to Greek Mythology

A Multicultural overview of  
some of the gods and goddesses  
of the Greek pantheon.  
Includes a list of the most famous  
gods and goddesses and a list of the  
most famous myths.

What is a Myth and What is its Purpose?

### What is a Myth and What is its Purpose?

Myth is a story or legend that is  
believed to be true and is often  
used to explain natural phenomena.  
Myths are often used to explain  
the world and the human condition.  
They are often used to teach  
moral lessons and to inspire people.

### Gods & Goddesses

Zeus, the god of the sky and  
thunder, was the most powerful  
of the gods. He was often  
depicted with a lightning bolt.  
Athena, the goddess of wisdom  
and war, was the daughter of  
Zeus. She was often depicted  
with a helmet and a spear.

The gods were believed to live on  
Mount Olympus. They were often  
depicted with human-like features,  
but with supernatural powers.  
They were often used to explain  
natural phenomena and the human  
condition.

### The Greek Creation Myth

The Greek creation myth tells of the  
beginning of the world. It begins with  
Chaos, the primordial void. From  
Chaos, the first gods were born:  
Gaia (Earth), Uranus (Sky), and  
Papa (Sea). These gods then created  
the world and the human race.

## **Advanced Powerpoints On Greek Mythology:**

**The Greek Gods in Modern Scholarship** Michael D. Konaris, 2016 The nineteenth century is a key period in the history of the interpretation of the Greek gods The Greek Gods in Modern Scholarship examines how German and British scholars of the time drew on philology archaeology comparative mythology anthropology or sociology to advance radically different theories on the Greek gods and their origins For some they had been personifications of natural elements for others they had begun as universal gods like the Christian god yet for others they went back to totems or were projections of group unity The volume discusses the views of both well known figures like K O Muller 1797 1840 or Jane Harrison 1850 1928 and of forgotten but important scholars like F G Welcker 1784 1868 It explores the underlying assumptions and agendas of the rival theories in the light of their intellectual and cultural context laying stress on how they were connected to broader contemporary debates over fundamental questions such as the origins and nature of religion or the relation between Western culture and the Orient It also considers the impact of theories from this period on twentieth and twenty first century scholarship on Greek religion and draws implications for the study of the Greek gods today
