Sketching Outdoors in Summer Jim Arnosky,2022-09-20 Jim Arnosky began Sketching Outdoors in Summer in his garden at the base of an old and rotting tree From the garden the path of his sketching meandered through the yard and around the house then wandered off to nearby meadows fields rivers and lakes on an artistic journey of discovery in a season ripe with promise Summer kept its promise offering countless delights to observe and draw Catbirds and their hungry nestling A Gnarled tree trunk on the leeward shore of a lake Sheep huddling against a drenching summer shower The shapely gunwales of a beached canoe These summer sketches are about things I love doing as well as things I enjoy drawing

"The Year's Art," 1897 Hours in my garden, and other nature sketches Alexander Hay Japp, 1894 **STEEP TRAILS:**

Adventure Memoirs, Travel Sketches, Nature Essays & Wilderness Studies John Muir, 2017-07-04 The papers brought together in this volume span a period of twenty-nine years of Muir's life during which they appeared as letters and articles for the most part in publications of limited and local circulation. Some of these papers were revised by the author during the later years of his life and these revisions are a part of the form in which they now appear. The recital of his experiences during a stormy night on the summit of Mount Shasta will take rank among the most thrilling of his records of adventure. His observations on the dead towns of Nevada and on the Indians gathering their harvest of pine nuts recall a phase of Western life that has left few traces in American literature. Many too will read with pensive interest the author's glowing description of what was one time called the New Northwest. John Muir 1838-1914 was a Scottish-American naturalist, author, environmental philosopher, and early advocate of preservation of wilderness in the United States. His letters, essays, and books telling of his adventures in nature, especially in the Sierra Nevada mountains of California, have been read by millions. His activism helped to preserve the Yosemite Valley, Sequoia National Park, and other wilderness areas. The Sierra Club, which he founded, is a prominent American conservation organization.

Beyond the Science Fair Wendy Saul, 2005 It's time to rethink the traditional science fair with its tired tri-fold posters and first-prize ribbons. It's time to create an event where children share the results of authentic, personally meaningful explorations with one another rather than compete for adults' praise and attention. It's time for a Kids Inquiry Conference (KIC). *Beyond the Science Fair* is a how-to manual for organizing and hosting a KIC that's linked to your curricular planning and goals. Beginning with a snapshot of a KIC developed by the authors, *Beyond the Science Fair* guides you through the specifics of organizing and hosting the conference in your classroom, school, or district with a wealth of narrative descriptions of KIC classrooms, examples of student projects, personal reflections by students and teachers involved in KICs, tips on encouraging student involvement, an extensive

resource list 26 helpful reproducible forms like student registrations promotional flyers and letters to parents Then Beyond the Science Fair details how KICs can contribute toward your curricular objectives including information on how they help you meet science and literacy standards develop students critical thinking analytical and presentation skills implement inquiry based science instruction use cross curricular learning to support scientific inquiry Adopt a more meaningful and student centered alternative to the science fair Read Beyond the Science Fair and create opportunities for kids to investigate their world and share the products of their natural curiosity with a scientific community of their peers Lancashire sketches, ed. by G.
