Slipware A Diversity Of Approaches:

Slipware Michael Eden, Victoria Eden, 1999 A renewed interest in its techniques and appreciation of its rich vibrant qualities has today brought slipware to the forefront as a pottery of choice **Annual Bibliography of Modern Art** Museum of Modern Art (New York, N.Y.). Library, 2000 **American Book Publishing Record** ,1999 **Ceramics and Change in the Early Bronze Age of the Southern Levant** Graham Philip, Douglas Baird, 2000-12-01 This book sets out the primary issues and current debates in the use of ceramics to reconstruct and explain cultural economic and social processes in the Early Bronze age By bringing together research on pottery from various parts of the southern Levant it allows direct comparison of contemporary material from different regions Alongside these empirical studies are discussions of general ceramic issues so that the book highlights the potential of pottery as an investigative tool and indicates fruitful directions for future research within the traditionally conservative field of Levantine archaeology **The British National Bibliography** Arthur James Wells, 2000 *Subject Guide to Books in Print* ,1991 **The Next Whole Earth Catalog** Stewart Brand, 1980

A Fragmented History Gijs Willem Tol, 2012 This dissertation presents four methodological case studies that elaborate on the results of two field survey projects the Astura and Nettuno surveys that were carried out by the Groningen Institute of Archaeology GIA The case studies aim at investigating biasing factors that limit the analytical and comparative value of data from archaeological survey in general using these two projects as a suitable testing ground Both surveys carried out between 2003 and 2005 fell within the ambit of the Pontine Region Project PRP a long term research program aimed at the diachronic archaeological investigation of the various landscape units forming this region They covered two contiguous areas situated on the Tyrrhenian seaboard approximately 60 kilometres south of Rome The study area comprises the communal area of the modern town of Nettuno as well as the lower valleys of the Astura and Moscarello rivers see fig 0 1 2 As such it incorporates parts of the hinterland of the ancient towns of Antium and Satricum In chronological terms this dissertation considers a time span of 1300 years from the 6th century BC to the 7th century AD **Journal of Roman Archaeology** ,1990 Ceramics Monthly ,1999-06 **Encyclopedia of Historical Archaeology** Charles E. Orser Jnr, 2002-09-11 The Encyclopedia of Historical Archaeology is a ground breaking compendium of information about this ever growing field Concentrating on the post 1400 period as well as containing generic explanations of historical archaeology where needed the encyclopedia is compiled by over 120 experts from around the world and contains more than 370 entries covering important concepts and sites **Plain Pottery Traditions of the Eastern Mediterranean and Near East** Claudia Glatz, 2016-07 This volume reevaluates the role and social significance of plain pottery traditions in a range of early complex societies of the Near East and Eastern Mediterranean from both historically specific perspectives and from a comparative point of view *Ceramic Review* ,1999 Forthcoming Books Rose Arny, 1999 **Islands Under Influence** Ann-Louise Schallin, 1993 **Once upon a Time in the East** Philip Bes, 2015-07-31 Provides analysis of production trends and complex quantified distribution

patterns of the principal traded sigillatas and slipped table wares in the Roman East from the early Empire to Late Antiquity

Pottery in the Making British Museum, Museum of Mankind, 1997 Starting with the basic question What is pottery this work investigates why and how ceramics have been made throughout the world ever since humans first began manipulating clay during the Stone Age over 12 000 years ago Drawing on the ceramic collections of the British Museum and the work of its scientific staff 25 contributors examine the evidence for more than 30 pottery traditions These range from prehistoric Japan ancient Egypt and pre Hispanic Peru through classical Greece Ming China and medieval and Renaissance Europe right up to contemporary Africa and India Archaeological Methods and Approaches : Industry and Commerce in Ancient Italy

Eric C. De Sena, Hélène Dessales, 2004 **The Historical Archaeology of Pottery Supply and Demand in the Lower Rhineland, AD 1400-1800** David R. M. Gaimster, 2006 Studies in Contemporary and Historical Archaeology 1 This study of post medieval ceramic production and consumption in the Lower Rhineland is prefaced by a survey of previous work and approaches in the field With the initiation of large scale urban excavations in the Lower Rhineland during the 1980s particularly in the town of Duisburg an extensive sequence of pottery has been recovered dating from c 1400 to 1800 enabling archaeologists for the first time to re examine traditional chronologies attributions and socio economic interpretations This survey comprises 95 individual assemblages of pottery from sites excavated in Duisburg and from towns and rural sites in the region Studies in Contemporary and Historical Archaeology is a new series of edited and single authored volumes intended to make available current work on the archaeology of the recent and contemporary past The series brings together contributions from academic historical archaeologists professional archaeologists and practitioners from cognate disciplines who are engaged with archaeological material and practices **The Common Wares of**

Sagalassos Roland Degeest, 2000 By far the most common archaeological finds consist of potsherds Although the study of ceramics started at an early date discrepancies and lacunae are rife in this area of archaeological research For the Roman period the so called fine wares have always attracted more interest than the more utilitarian ceramics Although this situation has been rectified to a large extent in the Roman west the eastern part of the empire remains by and large terra incognita with most of the effort going into the study of fine wares A second discrepancy exists between the coastal areas which are rather well known and the inland sites specifically in Asia Minor This book is one of the first attempts to rectify at least in part the existing situation by studying the common wares of the Roman town of Sagalassos in Pisidia from the first to the middle of the seventh century The research on a previously unknown pottery manufacturing centre is placed within the wider framework of pottery research in the eastern Mediterranean but contrary to most of the extant studies the chosen approach is not limited to typology and chronology Also included are a full mineralogical chemical analysis of the different fabrics both local and imported while the full typological spectrum of wares and types is described quantified and illustrated As such it represents a major addition to the ceramics research concerning the eastern Roman empire
