The Logos Reader Stephen Eric Bronner, Michael Thompson, 2006-01-01 Founded in 2002 Logos A Journal of Modern Society and Culture was established in response to the increasing erosion of a left political culture and the new possibilities for international political engagement and cooperation produced by the Internet Many of the best known intellectual representatives of what might be termed a rational radicalism soon served as the core group for this new online journal that has reached about four million readers The Logos Reader brings together the most influential and controversial work to appear in the journal In its pages writers of exceptional stature such as Stanley Aronowitz Ulrich Beck Drucilla Cornell Fred Dallmayr Jürgen Habermas Douglas Kellner and Eric Rouleau articulate liberal and socialist values even as they retain theoretical viewpoints influenced by critical theory The contributors deal with some of the most pressing political issues of our age including transnational developments U S foreign policy the Iraqi War the plight of the Palestinians and the domestic concerns currently dominating American politics With themes that speak to the most pertinent and enduring issues of a post 9 11 culture the essays in The Logos Reader represent the best of modern liberal thought and will influence contemporary political discourse

The Political Identity of the West Marcel van Ackeren, Orrin Finn Summerell, 2007 To assert that a clash of civilizations follows inexorably from the different religious convictions at the foundations of Western Judeo Christian and Arabic Islamic cultures means to deny that a common political rationality can articulate genuinely universal albeit culturally situated values The eleven contributions to the present volume take up this controversy by challenging its premise that the heritage of classical Greek thought is exclusively part of Western political identity By exploring the tradition of Platonism informing both Arabic Islamic and Western political thought and intellectual history in key stations in their history the contributors show how Platonic political theory can still bear fruit in the present day especially in the context of dialogue between cultures

*A Possible Peace Between Israel and Palestine* Menachem Klein, 2007 In 2003 after two years of negotiations a group of prominent Israelis and Palestinians signed a model peace treaty The document popularly called the Geneva Initiative contained detailed provisions resolving all outstanding issues between Israel and the Palestinian people including drawing a border between Israel and Palestine dividing Jerusalem and determining the status of the Palestinian refugees The negotiators presented this citizens initiative to the Israeli and Palestinian peoples and urged them to accept it One of the Israeli negotiators was Menachem Klein a political scientist who has written extensively about the Jerusalem issue in the context of peace negotiations Although the Geneva Initiative was not endorsed by the governments of either side it became a fundamental term of reference for solving the Middle East conflict In this firsthand account Klein explains how and why these groups were able to achieve agreement He directly addresses the formation of the Israeli and Palestinian teams how they managed their negotiations and their communications with both governments He also discusses the role of third party facilitators and the strategy behind marketing the Geneva Initiative to the public A scholar and participant in the

Geneva negotiations Klein is able to provide both an inside perspective and an impartial analysis of the diplomatic efforts behind this historic compromise He compares the negotiations to previous Israeli Palestinian talks both formal and informal and the resolution of conflicts in South Africa and Algeria Klein hopes that by treating the event as a case study we can learn a tremendous amount about the needs and approaches of both parties and the necessary shape peace must take between them The Publishers Weekly ,2005 **The Nation** ,2005 2006,□□□□□ □□□□ □□□'□ □□□□□ **The British National Bibliography** Arthur James Wells,2007 A Handy Book of Reference on All Subjects and for All Readers Ainsworth Rand Spofford,Charles Annandale,1900 **The New Cabinet Cyclopædia and Treasury of Knowledge** ,1892 *Radical Philosophy* ,1990 Twentieth Century ,1890 **Encouraging Entrepreneurship in Eastern Europe** ,2006 **Next Generation Business Handbook** Subir Chowdhury,2004-10-04 Coverage of topics like career imprinting and operating in a virtual workspace that are receiving increased attention in organizations **Canadian Journal of Political and Social Theory** ,1981 **New Socialist** ,1983 **Canadian Periodical Index** ,1965 The Christian Union Henry Ward Beecher,1885 Paperbound Books in Print 1995 Reed Reference Publishing,R5ference Reed,1995-12 **First Things** ,2006 **The Philosopher's Index** ,2008 Vols for 1969 include a section of abstracts
