**Making, Selling and Wearing Boys' Clothes in Late-Victorian England** Clare Rose, 2016-12-05 There has been a great deal of recent interest in masculine clothing examining both its production and consumption and the ways in which it was used to create individual identities and to build businesses from 1850 onwards Drawing upon a wide range of sources this book studies the interaction between producers and consumers at a key period in the development of the ready made clothing industry It also shows that many innovations in advertising clothing usually considered to have been developed in America had earlier British precedents To counter the lack of documentary evidence that has hitherto hampered research into the dress practices of non elite groups this book utilises thousands of unpublished visual documents These include hundreds of manufacturers designs which underline an unexpected degree of investment by manufacturers in boys clothing and which was matched by heavy investment in advertising with thousands of images of boys clothing for shop catalogues in the Stationers Hall copyright archive Another key source is the archives of Dr Barnardo's Homes This extraordinary collection contains over 15 000 documented photographs of boys entering between 1875 and 1900 allowing us to look beyond official polarization of raggedness and respectability used by charities and social reformers of all stripes and to

establish the clothing that was actually worn by a large sample of boys A close analysis of 1 800 images reveals that even when families were impoverished they strove to present their boys in ways that reflected their position in the family group and in society By drawing on these visual sources and linking the design and retailing of boys clothing with social cultural and economic issues this book shows that an understanding of the production and consumption of the boys clothing is central to debates on the growth of the consumer society the development of mass market fashion and concepts of childhood and masculinity

*Tweed* Fiona Anderson, 2016-12-15 The story of tweed is tied to a series of social economic and cultural shifts that have molded its development This book considers the historical factors that helped to shape the design characteristics and social meanings of the group of fabrics that we call tweed from their emergence in the 1820s to the present day Including significant new research on tweeds from Harris Tweed to the type used by Chanel this book follows the history of these fabrics from the raw fiber to the finished garment in men s and women s fashion Exploring rural and urban contexts this book reveals the important physical and conceptual relationships of tweed with landscape Anderson shows that contrary to their strong popular associations with tradition tweeds emerged in the Romantic era as a response to the dramatic changes associated with industrialization and urbanization Progressive changes in gender relations are also explored as a major factor in tweed s evolution from associations with particular ideals of masculinity into what is now a truly adaptable fashion textile worn by both sexes This is the first book of its kind to recognize the importance of tweed to fashion innovation today

*Selvedge*, 2005      **The Art Quarterly of the National Art Collections Fund**, 2005      Fashion and Modernity Christopher Breward, Caroline Evans, 2005 What is the relationship between fashion and modernity and how is this unique relationship manifested in the material world This book considers how the relationship between fashion and modernity tests the very definition of modernity and enhances our understanding of the role of fashion in the modern world      The Atlantic Monthly, 2005      **Museums Journal** Elijah Howarth, F. R. Rowley, W. Ruskin Butterfield, Charles Madeley, 2005 Indexes to papers read before the Museums Association 1890 1909 Comp by Charles Madeley v 9 p 427 452      **Swinging Sixties** Christopher Breward, David Gilbert, Jenny Lister, 2006-06 *Swinging Sixties* takes a new look at a revolutionary moment in 20th century fashion Its starting point is the publication in April 1966 of Time magazine s famous issue on London s reinvention as the new world centre of style Forty years on chapters by prominent authors reconsider the role played by designers retail entrepreneurs journalists photographers and film makers in promoting a new way of dressing that reverberated far beyond the British capital Illustrated with stunning new shots of key pieces from the V A s dress collection alongside contemporary photographs posters and other ephemera the book relates the clothes to the rapidly changing social context of the times arguing for the central role played by fashion in the brave new world of Sixties pop culture      *Hussein Chalayan* Hussein Chalayan, Caroline Evans, 2005 For millions of people around the world Tibet is a domain of undisturbed tradition the Dalai Lama a spiritual guide By contrast the Tibet Museum opened in Lhasa by the Chinese in 1999 was designed to reclassify

Tibetan objects as cultural relics and the Dalai Lama as obsolete. Suggesting that both these views are suspect, Clare E. Harris argues in *The Museum on the Roof of the World* that for the past one hundred and fifty years British and Chinese collectors and curators have tried to convert Tibet itself into a museum, an image some Tibetans have begun to contest. This book is a powerful account of the museums created by for or on behalf of Tibetans and the nationalist agendas that have played out in them. Harris begins with the British public's first encounter with Tibetan culture in 1854. She then examines the role of imperial collectors and photographers in representations of the region and visits competing museums of Tibet in India and Lhasa. Drawing on fieldwork in Tibetan communities, she also documents the activities of contemporary Tibetan artists as they try to displace the utopian visions of their country prevalent in the West as well as the negative assessments of their heritage common in China. Illustrated with many previously unpublished images, this book addresses the pressing question of who has the right to represent Tibet in museums and beyond.

*The Biba Years* Barbara Hulanicki, Martin Pel, 2014-09-23 A revealing look at the fashion revolution of the 1960s and 70s through the groundbreaking hip and now legendary London emporium Biba. This book looks at the most beautiful store in the world. Biba, founded in 1963 by designer Barbara Hulanicki, quickly gained cult status and outgrew several locations before the five-story Big Biba opened in 1973. More than a store, it was a haven of cool for artists, movie stars, and rock musicians. This book tells the story of the Biba decade and how the label revolutionized retail and fashion culture. With a wealth of previously unpublished material, including full-color facsimiles of the six luxurious Biba catalogs and archival photographs, *The Biba Decade* looks at the first retailer to bring affordable fashion to young consumers. Stunning new photography documents the unique Biba look and the designer and her contemporaries offer their personal insights.
