North American Odyssey Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers building on current scholarship in the field explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes, as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth and twentieth century planning, and environmental justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history. Contributions by Derek H. Alderman, Timothy G. Anderson, Kevin Blake, Christopher G. Boone, Geoffrey L. Buckley, Craig E. Colten, Michael P. Conzen, Lary M. Dilsaver, Mona Domosh, William E. Seamus Heaney's American Odyssey Edward J. O'Shea, 2022-12-30 Seamus Heaney's American Odyssey describes with a new archive of correspondence, interviews, and working drafts the some 40 years that Seamus Heaney spent in the United States as a teacher, lecturer, friend, and colleague, and as an active poet on the reading circuit. It is anchored by Heaney's appointments at Berkeley and Harvard, but it also follows Heaney's readings on the road at three important points in his career. It argues that Heaney was initially receptive to American poetry and culture while his career was still plastic, but as he developed more assurance and fame, he became much more critical of America as a superpower, especially in the military reaction to 9/11. This study emphasizes the heard Heaney as much as the writerly Heaney by listening in on key poetry readings at different times and to recorded but unpublished lectures on American and British poets at Harvard. It includes accounts by his creative writing students, aspiring poets who testify to his mentoring, as well as modeling for them how one can be a poet in the world as he was most strikingly.
