mission to preserve skiing history and to increase awareness of the sport's heritage Two Planks and a Passion Roland Huntford, 2008-09-29 Roland Huntford's brilliant history begins 20 000 years ago in the last ice age on the icy tundra of an unformed earth. Man is a travelling animal and on these icy slopes skiing began as a means of survival. That it has developed into the leisure and sporting pursuit of choice by so much of the globe bears testament to its elemental appeal. In polar exploration it has changed the course of history. Elsewhere in war and peace it has done so too. The origins of skiing are bound up in with the emergence of modern man and the world we live in today **Skiing Heritage Journal**, 1994 Skiing Heritage is a quarterly Journal of original entertaining and informative feature articles on skiing history. Published by the International Skiing History Association its contents support ISHA's mission to preserve skiing history and to increase awareness of the sport's heritage The Log, 1945 **Ski Style** Annie Gilbert Coleman, 2004 Coleman traces skiing from its Norse roots and Alpine influences through the utility of ski travel in the winter Rockies to the rise of Colorado resorts. Much more than a history of the sport her work explains how the recreation industry sold the experience of skiing and created mythic mountain landscapes with real problems and a ski culture that exalts celebrity and status over the physical act of skiing. Jacket Skiing into Modernity Andrew Denning, 2014-11-26 Skiing into Modernity is the story of how skiing moved from Europe's Scandinavian periphery to the mountains of central Europe where it came to define the modern Alps and set the standard for skiing across the world. Denning offers a fresh sophisticated and engaging cultural and environmental history of skiing that alters our understanding of the sport and reveals how leisure practices evolve in unison with our changing relationship to nature. Denning probes the modernist self definition of Alpine skiers and the sport's historical appeal for individuals who sought to escape city strictures while achieving mastery of mountain environments through technology and speed. Two central features distinguishing early twentieth century cultures Skiing into Modernity surpasses existing literature on the history of skiing to explore intersections between work tourism leisure development environmental destruction urbanism and more **Snow Crazy** Arnie Wilson, 2019-05-10 On 6 May 1903 twelve men sat down to dinner at the Caf Royal in London and started a ski club. It would become the most famous in the world the Ski Club of Great Britain. Exotic places like Val d'Isère and Courchevel had yet to be invented. Zermatt was a climbing village famous for the Matterhorn conquered for the first time less than 40 years previously but not for its skiing. In those days to the British skiing was little more than a slightly odd sport practised by English eccentrics. There were no ski lifts or resorts but nevertheless the British pioneered Alpine skiing so that they could indulge their passion for a craze that was about to grip the world of Winter sports. Over the years the Ski Club published an almanac which became a document of fascinating amusing and downright bizarre anecdotes of the Brits on the slopes as the sport went from being a minority diversion to the worldwide obsession it is today *Skis and Andes* Eugene Du Bois, 1937 **Skiing in the U.S.A.: The Insider's Guide**, 1995-08-29 Hobson gives readers the insight of a pro who knows every slope from base to summit.
